

BRITISH PRAISE FRENCH CAVALRY

Render Important Aid During Fighting on the Lys.

Several Villages Taken and Retaken Three Times.

German Barricade Destroyed by Heavy Artillery.

THE ATLANTIC CABLE AND A. P. LONDON, Oct. 27.—The official press bureau makes public today the story of an event, supplementing the narrative of October 26, and bringing the general course of operations in France up to October 28.

The arrival of reinforcements in force, enabled the British troops to assist in the extension of the allies' line where the enemy advanced from the north and east, holding a front extending from Mont Desca, about ten miles northeast of Hazebrouck, through Meters, five miles south of that point, and then on to the river Lys, three miles west of Lille, on the Lys. The statement continued: "South of the Lys this line extended for three miles, east of Bethune, and thence to the north, where it met the line of the allies on the 15th, when the enemy's right flank was broken. The British, who were north of the Lys, then moved on to the east, where they were engaged in a series of attacks on the enemy's positions, which were retaken three times. On the 14th, our left wing advanced, driving the enemy back on the night of the 14th, we were in possession of all the country to the left bank of the Lys to a point five miles below Arras. The enemy retired from that town on the 15th, and the river line, to within a short distance of Frelingheim, fell into our hands.

The state of the crossings over the Lys indicated that no organized scheme of defense had been conceived, and that the bridges were in a state of repair, others merely barricaded, while one was not even defended or broken.

The resistance offered to our advance on the 15th was of a most determined character. The fighting consisted of ferocious hand-to-hand combat, in which the British and French troops, supported by their heavy artillery, repulsed the enemy's attacks on the 15th, and the resistance was so determined that the enemy retired five miles to the eastward.

INCIDENT OF FIGHTING. Describing an incident of the fighting on this night the narrative says: "The importance of the Lys at Arras was shown by the fact that the Germans with a barricade at the bottom to enable the men to fire while lying down. The barricade was destroyed by our heavy artillery, and the enemy's position was broken up, and the fighting continued on the 16th, when the British and French troops, supported by their heavy artillery, repulsed the enemy's attacks on the 16th, and the resistance was so determined that the enemy retired five miles to the eastward.

Our artillery, which was in position to pieces and scattered the debris of the narrative continued: "The fighting on the 16th was so determined that the enemy retired five miles to the eastward, and the British and French troops, supported by their heavy artillery, repulsed the enemy's attacks on the 16th, and the resistance was so determined that the enemy retired five miles to the eastward.

Germans' Slow Progress.

(Continued from Second Page.)

along the coast, the French have been taking the offensive, and to the north of Soissons have been engaging in an artillery duel with the Germans in which they have destroyed several of the German batteries. They seem to have been playing at this game for some time, for the last three reports from Paris have announced the destruction of German guns.

Further east the offensive tactics of the French have driven the Germans who were threatening Nancy back across the frontier. The Germans, however, are so strongly entrenched along this long line that it is believed they are preparing to remain for the winter, holding their positions until their present objectives, the northern ports of France, have been attained.

POLAND. Very serious battles also are proceeding in Southern Poland and in Galicia, without decisive result. The Russian army, however, have crossed the Vistula north of Warsaw with a large army corps, which should have a marked effect on the fortune of the battle. They appear from their own account to be breaking down the resistance of the Austrians south of Przemyśl, and throughout Galicia where fighting of the most stubborn character has been going on for weeks.

SOUTH AFRICA. Another rebellion has broken out in South Africa—this time headed by Gen. Christian De Wet and Gen. Beyers. Neither of these men has any political following, but it is feared that some of the burghers who, like themselves, retain some of the bitterness aroused by the South African war, will join them.

The defense force, as the army of the Union of South Africa is called, is considered safe for the government. He concluded today that the officers and men of the army followed him. Besides, Gen. Botha, the Premier, received the support of the great mass of the people of the Union.

IRELAND. German mine layers have again been busy and have succeeded in mining the waters north of Ireland, the first victim of which has been the steamer Manchester Commerce.

TWO NEW CALIFORNIA BANKS. Continental National of Los Angeles and Cotton Exchange of Calexico Are Authorized to Do Business.

WASHINGTON BUREAU OF THE TIMES, Oct. 27.—The Comptroller of the Currency has approved the following applications for authority to organize national banks:

The Continental National Bank of Los Angeles, capital, \$100,000; and the Cotton Exchange Bank of Calexico, Cal., capital, \$100,000; corresponding to L. P. Martin, W. McDermitt, A. M. Douglas and L. B. Merchant.

WHISKY MEN
FACE CHARGES.

SENATOR NORRIS SAYS LOBBY WAS ACTIVE.

Allegation is Made that Men Were Stabbed in the Back and that Theo Bell of California Wielded One of the Daggers with Consummate Skill.

WASHINGTON, Oct. 27.—The list of persons he believes should be called before the Senate Lobby Committee in connection with his charges that a lobby has been working in the interests of liquor producers to prevent a tax on whisky and an increased levy on beer was nearing completion today by Senator Norris of Nebraska. He made the charges in the Senate during the final discussion on the war revenue bill.

Senator Norris has already submitted a partial list to Chairman Overman of the committee.

Among those whom he suggests should be called are Royal E. Cabell, former Commissioner of Internal Revenue, and Theodore Bell of California.

GERMAN MINES
ARE EVERYWHERE.

LAD NORTH OF IRELAND AND BRITISH FREIGHT VESSEL IS SUNK.

LIVERPOOL (via London) Oct. 27.—The Admiralty has warned ship-owners that the Germans have succeeded in laying mines around the north of Ireland and that ships should therefore not pass within sixty miles of Tory Island. It is considered probable that it was one of these mines that the British steamer Manchester Commerce struck.

FREIGHTER HITS MINE.

BELFAST (Ireland) Oct. 27 (via London).—The British freight steamer Manchester Commerce, bound from Manchester for Montreal, struck a mine at midnight last night and sank. Capt. Payne and thirteen men were drowned. Thirty other members of the crew were saved by a trawler.

GERMAN PRINCE
A PRISONER.

LIMOGES (via Paris) Oct. 27.—Five German officers, wounded in battle, are in the hospital here. Among the number is Prince Jean Charles of Carlsruhe-Beuthen, a lieutenant of the regiment of Uhlans No. 3, who is suffering from a wound in the leg.

ASTOR'S SON
IS WOUNDED.

LONDON, Oct. 27.—Capt. John Jacob Astor, First Life Guards, son of William Waldorf Astor, has been wounded in a battle in France. His name appears in the list of casualties made public tonight.

ROCKEFELLERS ARE DEFENDED.

Innocent of Monopolistic Intent, Says Counsel.

Steel Concern Alleged to be Fair to Competitors.

Never Have Controlled Prices Declares Attorney.

PHILADELPHIA, Oct. 27.—John D. Rockefeller and his son, among the defendants named in the government's dissolution suit against the United States Steel Corporation, were defended in the Federal District Court today and held innocent by their counsel of the charge that they were conspirators in the formation and management of the big steel concern.

George Welwood Murray of New York, who argued their case, suggested to the court that possibly the government's contention, that John D. Rockefeller to the list of defendants merely to "add drapery and scenery to give effect to the suit."

Likewise, counsel for the ore interests, commonly known as the Hill interests, which leased ore deposits in the Lake Superior region to the steel corporation, held his clients innocent of any monopolistic intention when the Great Northern Ore lease was made.

It was the sixth day of the argument in the case. David A. Reed of Pittsburgh, who began speaking yesterday, largely on the technical side, concluded today. He maintained that the steel industry is bigger than the steel corporation, and that it could not control the trade as to prices and competition, even if it so desired.

Cordeno A. Severance of St. Paul, also speaking for the steel corporation, declared that the corporation was always fair to competitors, and ridiculed the government's charges that some of the steel corporation's so-called interlocking directorate favored the big concern in throwing business in its way while sitting in railroad or other boards of directors.

The history of the steel industry showed that when independents cut prices the corporation had to go along, he said.

In defending the Rockefellers, Mr. Murray said his clients had no hand in the organization of the steel corporation, that they were merely sellers of property to the concern.

The two Rockefellers, he added, were only nominal directors, having taken an active part in the property and resigning from the board soon before the government suit was brought. He asked that the suit be dismissed so far as it affects his clients.

Frederic R. Kellogg of New York, arguing for the Hill interests, asked that the proceedings be dismissed against his clients, which include eighteen lands and ore companies and five trustees of these concerns on the ground that they did not participate in the formation of the corporation and had no connection with it after ward.

The government contends that the lease of the ore lands to the corporation shut out competitors from getting sufficient supplies of ore for their use.

An important point touched upon by Messrs. Murray and Kellogg was that a decree sustaining the contentions of the government would be used as prima facie evidence, under the new Clayton anti-trust law, by any person who feels he has been damaged in his business by unlawful combination if the court should declare that the formation of the steel corporation was illegal and the individual defendants were guilty of conspiracy.

John G. Johnson of Philadelphia will close the argument for the steel corporation tomorrow, and he will be followed in rebuttal by Jacob M. Dickinson, chief counsel of the government in the suit, who opened the argument a week ago.

GENERAL HEADS
CASUALTY LIST.

BERLIN (via The Hague and London) Oct. 27.—The sixtieth Prussian casualty list, with accompanying Saxon and Bavarian lists, was published today. The list is headed with the name of Lieut.-Gen. Prince Frederic of Saxe-Meiningen, who was killed in battle near Montigny August 23.

Dispatches from the south report that the Germans have repulsed the French attacks in Southern Vosges.

NEW BRITISH GUN
WORRIES AIRMEN.

LONDON, Oct. 27.—The British gun, used for the first time in recent days, says the correspondent of the Times in Northern France, has provided a fresh terror for German airmen. The gun, the correspondent says, succeeds in finding its target with great facility.

GERMANS ASSESS
PRINCE OF MONACO.

LONDON, Oct. 27.—A message from Paris to the Exchange Telegraph Company says that the Germans have seized the Prince of Monaco's Chateau de Marchais near Rhims and declare that they will blow it up unless the Prince immediately pays a ransom of half a million dollars. The Prince has addressed an appeal in the case to the neutral countries.

SWISS COUNCIL ELECTION.

Triennial Balloting Results in Change of only Eight Seats in the National Assembly.

BERNE (Switzerland) Oct. 27 (via Paris).—The Swiss elections for members of the Swiss National Council resulted today in the change of only eight seats. The standing of the political parties in the council now is: Radicals, 110; Conservatives, 29; Socialists, 18; Liberals, 12; Social Reformers, 7; and Independents, 2.

KILL A CAT TO SAVE US.

Suspected Diphtheria Feline is Chloroformed by the State.

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 27.—A cat, which was found to have diphtheria was officially chloroformed and put to death at the health office today to keep it from infecting human beings. The cat was taken by Dr. Thomas D. Maher, chief medical inspector, and I. David, a health department disinfecter, from a residence in the Mission, where a child died from diphtheria. They caught it after a chase over back fences.

TO MARK WEIGHT
ON ALL HAMS.

PUBLIC FORCED TO PAY FOR WRAPPERS, PACKERS MAY BE PROSECUTED.

NEW YORK, Oct. 27.—Prosecution of the Swift and Armour Packing companies, and other large packers who have been charged with failure to mark wrapped ham and bacon with their net weight was recommended today by the city health department. The city health department is now forcing the packers to pay for the wrappings, which, on some packages, weigh from six to nine ounces.

The packers aver, according to the commissioner, that the covering of meats is a sanitary precaution and that they are violating no law. The commissioner holds that under the law paper or sacks, cannot be sold as meat, no matter what sanitary purposes are served thereby. The law prescribes a penalty of \$25 for each violation of it.

The Nerves and Their Needs

We do not give much thought to our nervous system when it is working all right but when it goes wrong nature has a way of calling it forcibly to our attention by something that we cannot overlook—pain.

Try to reach a painful nerve with medicine of any sort and you are confronted with a fact that every doctor knows, that the only way to reach the nerves is through the blood.

You see now why Dr. Williams' Pink Pills, the great tonic for the blood, are also a great nerve builder.

When a nerve becomes inflamed and painful it is—unless caused by an accident—because the blood was not giving it the elements of nourishment it needed.

Dr. Williams' Pink Pills build up the blood, the nerves are strengthened, the inflammation subsides and the pain vanishes. By keeping the blood rich and red by the use of Dr. Williams' Pink Pills the danger of nervous breakdown, insomnia, nervous indigestion and other disorders caused by ill-nourished nerves is greatly lessened.

In children the use of Dr. Williams' Pink Pills banishes the fear of St. Vitus's dance.

The Dr. Williams' Medicine Co., Schenectady, N. Y., will send free of cost a good little book on Nervous Disorders. Write for it today. Your own druggist sells Dr. Williams' Pink Pills.

FRANCE MODIFIES ITS MORATORIUM.

(BY ATLANTIC CABLE AND A. P.) BORDEAUX, Oct. 27.—President Poincaré today signed a decree modifying the moratorium proclaimed on August 31 and providing for a gradual return to normal financial conditions.

Bank depositors will be allowed to draw 1000 francs (\$200) plus 40 per cent of the balance in November and this percentage will be increased to 50 per cent in December.

The collection of commercial debts except those of mobilized soldiers may be prosecuted after December 1 in case the debtor invokes the moratorium in bad faith.

Rousing Demonstration Given to Capt. Fredericks.

Thousands Hear Candidate in Fresno Auditorium.

Reception Throughout Valley not Exceeded Anywhere.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) FRESNO, Oct. 27.—The boasted strength of Hiram Johnson in the San Joaquin Valley is a myth.

Following the record-breaking meeting which Capt. John D. Fredericks had in Stockton last night, Stanislaus, Merced and Fresno counties today accorded receptions to the Republican candidate for Governor.

Conclusively demonstrated the fallacy of the Progressive claims that the great inland section of California would give overwhelming support to the present administration on November 2, in Fresno tonight 2500 persons.

Today's campaigning by Capt. Fredericks has damaged Progressives in this part of the State. The meeting at Stockton last night was an auspicious prophecy of what the Republican candidate might expect in the San Joaquin Valley, but the fond anticipations of Capt. Fredericks were exceeded in this city, the very heart of the valley of the San Joaquin.

ALL SINK BUT FREDERICKS. An incident that occurred just outside of Merced will be prophetic. Pending construction of a highway a temporary route between Merced and Fresno has been opened. And at one point there is a deep and dangerous depression. It has been dubbed the "Candidate's Sink" owing to the fact that during the campaign every candidate for office, including John R. Curtin, Democratic gubernatorial aspirant, and Hiram Johnson, has been stuck there when they attempted to negotiate it in a machine.

As the Fredericks touring car approached "Candidate's Sink" this afternoon a solicitous pedestrian, who recognized Capt. Fredericks, shouted:

Join.

FOLSOM PRISON MUTINY LAID AT JOHNSON'S DOOR.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 27.—"Progressive" chickens are coming home to roost on Gov. Johnson's doorstep here in San Francisco in such numbers that his entire pie counter brigade is not able to shoe them away.

Today there were two new arrivals, one from Los Angeles and the other from Sacramento; the one from the south awakened laughter, that from the north indignation. Two of Johnson's henchmen left for Sacramento this afternoon to Jack up the press censor at Folsom prison for permitting unfavorable news to leak out, almost on the eve of the election.

On Friday night, October 16, there was a mutiny and attempted escape from the part of prisoners at Folsom prison. Four persons were seriously injured and a notorious criminal escaped.

The customary investigation was ordered by the prison board, all members of the Johnson pie brigade; but this has been stopped right in its inception.

Two who took part in the uprising admitted it was planned on that Friday night because they had heard the guards talking about that Sacramento Johnson meeting and that as many as could possibly get away were expected to travel to Sacramento, twenty miles away, to help swell the crowd and to join in the applause when the claqueur gave the signal.

WORD REACHES PRISONERS. Some of the prisoners surmised that the force would be short-handed that night just as it had been a few weeks before on the occasion of an earlier "Progressive" rally. Sure enough, Warden Smith and many of the other pie eaters were over at the Johnson meeting, this morning at least a partial success for the prison delivery.

While this fact is well known about the prison, efforts were made to keep it from the public until after next Tuesday.

From Los Angeles this morning came an Associated Press telegram carrying a statement by Gov. Johnson to the effect that he had not sought the Royal Arch Indorsement in San Francisco and did not expect to receive any such indorsement.

This came at a very embarrassing time for henchmen of Fatty Gallagher, the labor-union boss, and Tom Finn, who are just completing the round of the 2000 saloons in San Francisco, assuring the proprietors of each that the Royal Arch Indorsement has been promised Johnson and that it will be voted at the directors meeting Friday night.

Gallagher has been out making the rounds this afternoon carrying the assurance to the saloon men that Johnson's statement was only "handed out" to the "lunatics" and the "long hairs" down in the South. Finn and Gallagher's men assert that this indorsement was promised at Sacramento.

1000 more than heard Johnson, crowded into the auditorium to hear Capt. Fredericks. That was not the only exhibition of loyalty to the Republican standard-bearer. Five miles outside of this city the Fredericks party was met this evening by fifty automobile loads of supporters and escorted into Fresno. And tonight more than that number of machines were in the parade that preceded the rally in the auditorium. The procession wound its way through downtown streets that were alight with red fire. Nowhere in the State has there been a welcome to Capt. Fredericks that exceeded the reception tendered to him by Fresno.

to Ray Rogers, driver of the big car, a warning to beware. Rogers turned to the captain.

"Go to it," was the instructions he received. And he did. The powerful machine shot down the steep incline and out of the pit. And down the road a few miles the party came in sight of a reception committee of over 100, which was gathered around fifty automobiles lined up on either side of the highway. Certainly that was encouraging.

ANOTHER JIM DANDY. This was another one of the captain's "Jim Dandy" days. Capt. and Mrs. Fredericks left Modesto this morning under escort of Frank Cressy, Jr., chairman of the Stanislaus County Committee, and at 10:30 the Republican candidate for Governor addressed a large crowd on a street corner in Turlock. At this place Dr. H. Kyberg, chairman of the Merced County Committee, San Jose and others took charge of the party. Stops were made at Livingston and Atwater, and then the run was made to Merced.

Mrs. Fredericks and the captain were given a lunch at Merced and Mrs. Fredericks later was tendered a reception by Republican women of the city, headed by Mrs. J. R. Graham and Mrs. L. G. Worden, who were assisted by Mrs. J. F. Bedeen, who, by the way, is a Democrat.

Dr. Kyberg opened the meeting at Merced and introduced Judge F. G. Osterander as the presiding officer.

STRENUOUS DAY. Today's schedule was a strenuous one, and so C. J. Sullivan, the captain's secretary-manager, took a share of the hard work, going in advance of the gubernatorial car and speaking at all the points where stops were made. Sullivan emphasized the fact that the capitalization of corporations in California has fallen off \$876,000,000 under the present administration, and called attention to Johnson's extravagance.

SAMPLE OF EXTRAVAGANCE. "From January, 1911, to September 30, 1914, Hiram Johnson drew from the State Treasury \$109,551.31, as against the total amount spent by the State for the same period, at this rate, he will, by the end of his term, have spent a total of \$124,522.81, as against the total amount of \$109,551.31, which means that the Johnson administration has increased the State's debt by \$14,971.50."

Sullivan went extensively into the extravagances of the Johnson administration and was frequently applauded during the speeches he made. He is an effective campaigner.

WOMEN ESCORT CANDIDATE. Capt. Fredericks was more than elated when he was met by the big Reception Committee at Merced. The fifty automobiles paraded into town with sirens shrieking. The Republican standard-bearer and Mrs. Fredericks rode into the city in a car driven by Mrs. Maude Elliott, and containing Miss Lillian Drun, Miss Mabel Timmins and Miss M. C. Macdonald and Miss Ethel Webster. The committee.

BRASS CANNON TO BOOM IN REPUBLICAN CAMPAIGN.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

OAKLAND, Oct. 27.—Two brass cannons with three-inch bore will be used almost exclusively in outlying towns, and will probably fire their first charges in political life tomorrow night. It is announced that if the cannon are not large enough, several of four-inch bore can be secured.

The committee has completed its list of meetings but is not making them public till the day of each gathering.

PORTLAND RECALL FAILS; MAYOR ALBEE TRIUMPHS.

(BY A. P. NIGHT WIRE.)

PORTLAND (Or.) Oct. 27.—Voters in large number here today cast their ballots in the election for the recall of Mayor H. B. Albee and Commissioners Robert G. Dieck and William L. Brewster. It was estimated before the polls closed at 8 p.m. that nearly half of the city's 38,000 registered voters had expressed their opinion at the first recall election in Portland's history. Returns showed the recall had failed by a large majority.

A feature of the election was that women voters, in proportion to their registration, cast a much heavier vote than the men. There was some doubt of the fate of the plan to tax city water rates against owners of property whereon the water is consumed, instead of against the consumers. This was the only issue on the ballot in addition to the recall.

Mayor Albee was opposed for election by C. E. Kennedy, H. A. Bryer and Dr. George Parrish, opposed Commissioner Dieck, while L. A. Meert ran against Commissioner Brewster. Incompetence and extravagance were the charges on which the recall election against the three officials was based. Retaining his position as local manager of an insurance company, in violation of his oath of office, was an additional charge against the Mayor.

CONFIRMS OUTRAGE. William Saunders, a veteran of Civil War, who will presently be inmate of the Old Soldiers Home at Tountville, Napa county, is a Republican and was enthusiastic in support of the candidacy of John Fredericks for Governor.

"It was about two weeks ago," said Saunders today, "that I was one of the four hundred veterans who were gathered at the home because they were tired of the Republican party in charge of the State. I was one of the four hundred veterans who were gathered at the home because they were tired of the Republican party in charge of the State. He added: "California never witnessed the remarkable spectacle of a Republican nominee for Lieutenant-Governor campaigning in the Republican nominee for Governor. And you never before saw a leader of the party who was in power deliberately planning anything like that. It was when they held the

Methodists Inaugurate Plan to
Raise Relief Fund of Five Million
Dollars for the Cause.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Oct. 27.—Plans for inaugurating a campaign to raise a ministerial relief fund of \$5,000,000 were taken up here today at a convention authorized by the last general conference of the Methodist Episcopal Church, Eastern division, and laymen from all sections of country are attending the sessions, which will last three days.

**GRAY HAIR TURNS
BACK TO RIGHT COLOR**

How to Restore Natural Shade
—No One Will Know You're
Using Anything.

Prominent druggists in town report that most unusual results are now being accomplished in what many people have heretofore believed impossible—restoring gray hair to its natural, youthful color. This change is brought about by the use of the famous "Gray's Hair" preparation that is endorsed by hundreds of thousands of men and women whom it has rescued from the embarrassment of premature grayness.

**Greatest of All
Human Blessings**

The most wonderful thing in the world is love expressed in the helpless infant. And among those who are called to minister to the needs of the mother, the most precious and most difficult is the child.

Lapse from Burning Home.

Chad in night clothes, Mrs. L. Williams of No. 404 Long Beach avenue, escaped from her burning home early yesterday morning by leaping from a high window. Her telephone the fire department, she had found the doorway blocked by flames. The escape to the house is estimated at \$250.

Party for Maine Folks.

The Pine Tree State Society and the Y.W.C.A. State of Maine society will unite in a Maine Dinner in the Y.W.C.A. luncheon at 5 o'clock Friday evening. An athletic exhibition, followed by a show programme and Halloween party around the big fireplace in the members' room.

Free Training Offered.

A training class for volunteer workers will hold its first meeting at the Y.W.C.A. today. There is no charge for membership in the classes and persons skilled in the various lines will deliver the lectures. The class for young women of leisure will meet at 4 o'clock and that for business girls at 7:15. Miss Shannan, chief secretary, will be the speaker tomorrow.

Rector's Gold Cross Stolen.

Rev. Baker P. Lee, rector of Christ Church, reported to the police yesterday that a solid gold pectoral cross, three inches long, had been stolen from his vestment bag in his study. The cross was given to him fifteen years ago by Mrs. Lee and rather for its sentimental than its intrinsic value, the rector sought the assistance of the police in recovering it.

Luncheon of an Office.

J. Courtland Scott, chief clerk in the District Attorney's office, and Miss Edna Wenger, a stenographer in the same office, were married at the Episcopal Church at Anaheim Saturday. Yesterday they were given a "rice shower" by friends in the office. Chief Deputy District Attorney Ford made a short talk, wishing the happy couple prosperity and also placed them on probation for life.

Purse-Snatcher at Work.

Armed with a pocket knife, a purse-snatcher early last night attacked Mrs. E. A. Todd of No. 625 Bixel street while she was walking with Mrs. L. T. Pfiffner of No. 624 Bixel street, near the entrance of an alley at No. 455 South Union street. The thief escaped with Mrs. Todd's purse which he cut from the handle. The purse contained less than a dollar in small change. The women were not injured.

COURT ACTION, NOT RACE.

Exhibits A and B Follow Altercation Between Race Driver and a Mechanic.

The work of overhauling the speed demon which Tony Janette was to pilot in the forthcoming Corona races came to a stop yesterday. A heavy, polished steel connecting rod is exhibit "A" in the racing driver's battery complaint against C. W. Hunter, a mechanic in a South Main-street garage. Exhibit "B" is Janette's own head, the scalp of which shows six stitches.

ANY WAY TO GET IT.

Convicted of having forged the name of Dr. M. R. Bin to prescriptions for morphine, William J. Poli was fined \$150 by Police Judge Frederickson yesterday. He was arrested by State Inspector Jones, who introduced several dozen prescriptions as evidence. Poli was recently convicted, but given a suspended sentence for using the prefix "Dr." before his name.

ONE HUNDRED AND SEVEN YEARS HERS.

MOTHER OF TWENTY-FIVE WAS MEMBER OF OLD FAMILY IN CALIFORNIA.

Spry and Intelligent Almost up to

the last moments of her 107 years of life, Mrs. Juana de Rubio passed away last night at her home, No. 450 West Fifty-ninth place, the mother of twenty-five children, and believed to be the oldest Native Daughter in the State. She was born in San Diego in 1807. When she was 30 years of age she married Jose de Rubio, where she has since lived. He passed away thirty years ago. Her death was largely due to age.

The De Rubio family in the early days of California was one of the most noted south of the Tehachapi. Prosperity was theirs, and with it came a large family, six of their twenty-five children being twins. But several years later the smallpox epidemic carried away all but five, who are still living in this section.

Mrs. De Rubio leaves four daughters, Mrs. P. N. Staples, wife of Dr. Staples; Mrs. Frances Berry, Mrs. F. Butler of El Monte, and Mrs. Lucy Forbes, and a son, David Rubio. The arrangements for the funeral have not been made. The body is at the Overholzer parlors.

JAIL FACES JAPANESE DRIVER.

Nipponese Chauffeur of Elevated Police While Breaking Speed Limit Crashes Into Motorcyclist.

Oka Kakuhachi, a Japanese chauffeur of elevated police, is now sorry that he tried to out-speed a speed cap. Now he has to foot the bill for repairs to a motorcycle which he smashed and a jail sentence hangs over his head like a Damoclean sword.

He was hitting the high spots in Wilshire boulevard when Motorcycle Officer Shannon shot out of a recess in the street. The Japanese turned into Kingsley drive and as he was swerving around the corner he struck the motorcycle driven by Charles Pennyacker, a mechanic. Then he was arrested.

A complaint charging the chauffeur with driving more than thirty miles an hour was filed. The law makes it mandatory upon conviction to impose a jail sentence. Kakuhachi did not know this when arraigned in Police Judge Chambers' court yesterday. He intended to plead guilty.

"If you plead guilty I shall have to send you to jail," Judge Chambers told him.

The prisoner held an excited conversation with an interpreter thirty miles an hour was filed. The law makes it mandatory upon conviction to impose a jail sentence. Kakuhachi did not know this when arraigned in Police Judge Chambers' court yesterday. He intended to plead guilty.

THIS IS A REPUBLICAN YEAR AND JOHNSON IS GOING TO BE DEFEATED.

PLAN WELCOME FOR NOMINEE.

Fredericks Returning to the Southland.

Reaction Forecasts will be Read at Rally.

Reception the Feature of Tomorrow.

Complete reports of the political reaction of all the counties south of the Tehachas will be one of the features of the great welcome to be given to Capt. Fredericks, Republican nominee for Governor, at the reception at the Hotel Alexandria, Los Angeles, Friday night. A wide-awake canvass is now being made by the chairman of the various county republican central committees and the delegations from each county to pay their respects to Capt. Fredericks, Congressman Knowlton and other straight Republicans, who will be asked by Chairman Knowlton to express the sentiment of their respective communities.

Every indication is that the Trinity party will be one of the greatest features of the campaign, and the campaign of worry to the Republicans is that the building is not going to take care of the anti-union and strong. Arrangements are being made for overflow meetings with good speakers and music, and it is probable that Capt. Fredericks will be called upon to make more than one talk that night.

RECEPTION AT HOTEL. Capt. Fredericks will arrive in Los Angeles at about 8:45 o'clock Thursday morning over the Santa Fe. He will be welcomed by a committee. In the afternoon he will be the guest of honor at a public reception in the Alexandria Hotel, standing in the main lobby and shaking hands with every man and woman who cares to see him. Each is the care of a doctor, and, with the exception of the tragedy of the death of Anthony Coutts, the family is in a state of shock. The parents are afflicted with weakness of the heart, which makes it impossible that they should be able to live by grace of excitement and the thoughtfulness of their children. Coutts is a son of the late John Coutts, who was a sister of the late John Coutts. He is one of the children who will inherit an estate of \$100,000. His share will exceed \$100,000. TO LOS ANGELES COUNTY REPUBLICANS.

The Republican County Committee is in actual need of funds to complete its campaign for the election of Capt. Fredericks and the entire Republican ticket. It requires a great deal of legitimate money to make the fight legitimately—a fight which is for the best interests of all the people of California, for the restoration of the Republican party to power in the State and nation.

The Republican organization is not favored with the assistance of State-paid employees; it cannot wield the force of powerful commissions and boards to compel contributions from corporations.

The Republican organization cannot extend a leave of absence to thousands of employees to permit them to go out on the stump and into the voting precincts to work for the election of the Republican ticket.

The Republican party must depend upon contributions from Republicans to make this fight. It is a Republican fight. If the opposition is successful in this campaign, that success means the destruction of the Republican party in California.

This is a campaign of patriotism, of high principle, a campaign in which every Republican patriot has a definite interest. To all such patriots the Republican County Committee appeals for aid. Contributions should be sent to the Treasurer of the Republican County Committee, No. 556 L. W. Hellman building, Los Angeles.

W. M. BOWEN,
Chairman the Republican County Central Committee.

SAUNDERSES AND DAVIES ARE AT IT AGAIN.

Bitter Feeling of Two Bishop Families Aroused Once More by Receipt of Fraudulent Letter by One Alleged Sent by Other—Their History Blood-stained.

When persons in the vicinity of Bishop hear of a complaint that was issued in the United States District Court yesterday, they will say: "The Saunderses and the Davies are at it again."

No mountain feud of the Blue Ridge range was ever more bitter than that of the two families involved in the complaint which was brought by Danille L. Saunders of Bishop against George W. Davis. A warrant has been issued for the arrest of Davis.

Two years ago, the unfriendliness between the two families was stained with blood when M. J. Coveil, a brother-in-law of "Red" Saunders, was killed by a bullet fired from the hands of George W. Davis. The trial aroused the entire district because of the hostile attitude of the families involved. The shooting occurred at Handsburg, and in the trial that followed, Coveil was exonerated of all guilt by the jury.

Recently Danille L. Saunders received a letter, which appeared to have been written by his brother, Danille L. Saunders.

The letter follows: "LOS ANGELES, Oct. 17. "Dear Brother: Danille I am very sick and I must have some money. Send me \$100. If you haven't got it on hand, make some sort of arrangement with the bank. I'll fix it for you when I get well. Send it as quick as you can get it. Send it to No. 411 West Second street. (Signed) "B. H. SAUNDERSES."

A warrant charging Davis with having used the mail to defraud, has been issued, as the evidence in the hands of the Federal authorities is alleged to indicate that George Davis sent the letter to Saunders.

LIFE IMPRISONMENT HIS. "Cave Man" Convicted of Slaying Woman Uninterested in Sentence Imposed. His Attorney Says.

Manuel Francisco Cabral, convicted of killing Mrs. Harriet Vorndam, wife of Gus Vorndam, by choking her to death, in the Mission apartments, now the Alcazar, No. 262 North Broadway, October 22, 1913, will be compelled to serve his sentence of life imprisonment, imposed by the Criminal Court.

The appeal was set for argument in the District Court yesterday but Earl Rogers, appearing for counsel for the defense, made the statement in open court that neither Cabral nor his friends had shown any interest in the appeal, and that was the reason no preparation had been made to argue the case.

George Beebe, Deputy Attorney General, then moved that the judgment and order of the lower court be affirmed, and it was so ordered. That means the end of the chapter concerning Cabral, the alleged "cave man."

Civic Bodies Indorse Three State Buildings Plan.

Pledge Sacramento Support; Also San Francisco.

Edifice in Los Angeles is Shown Necessity.

Inspired by the pertinent slogan, "Be as big as California," representative of many civic, municipal and private interests, meeting yesterday in the ballroom of the Hotel Alexandria, unqualifiedly indorsed the three State building amendments. The meeting was under the auspices of a joint civic committee.

"I am one of those who have stood for State division," said Vice-President Bulla of the Chamber of Commerce, "but until circumstances and very apparent advantages shall force the cutting of our commonwealth in two, let us be for California. So I say vote for the State buildings for San Francisco and Sacramento as ungrudgingly as you will vote for the branch capital building here."

"Let us show our northern neighbors that we can sink sectional interests," counseled Mrs. A. S. Lobinier. "So I say for us to pile up a plurality for the Sacramento and San Francisco bond issues that will be a standing proof of this talk of sectionalism. Also do not forget the bonds for our State University."

"Here is an opportunity for us to start our civic center work with a

Assembly Nominee's Hearing for Smuggling On.

Damaging Case is Made Out Against Shepard.

Witness Swears He was "In on Opium Deal."

Brought from its cache in two valises hidden at the foot of a cactus tree in the Jacumba Mountains, to a burial place in the sand of the San Gabriel River bed near Whittier, eighty cans of smoking opium, worth \$8000, were traced yesterday by the government's witnesses in the complaint charging Frederic M. Shepard and A. C. Brown with smuggling.

Shepard is a nominee for the State Assembly from the seventy-first district, consisting of San Pedro, Wilmington, Gardena and Cerritos. Brown is a well-known farmer of Brawley.

After the witnesses yesterday were heard by United States Commissioner Williams, an adjournment of the case was taken until November 7, when Senator Isaac Barth, of Albuquerque, N. M., will be examined. It is claimed that the government has a number of letters signed by Shepard and addressed to Barth, promising that if he (Barth) would assist him in his defense, he would be paid just as soon as Shepard could realize on the sale of a lot of the opium. These letters were turned over by Barth to Dist. Atty. Schoonover yesterday.

Charles J. Kelly appeared for Shepard and Noleman & Smyser for Brown. The high spot of the evidence was that furnished by James R. Davies, a chauffeur, residing at No. 3017 K street, San Diego. He testified that he met both Brown and Shepard at the Barbara Worth Hotel, San Diego, in August, last, where an agreement was entered into by which he, Brown and Shepard were to make a trip to the Jacumba Mountains, south of San Diego, for a load of opium. When it came to starting, he said, Shepard begged off, saying that Brown knew

After the witnesses yesterday were heard by United States Commissioner Williams, an adjournment of the case was taken until November 7, when Senator Isaac Barth, of Albuquerque, N. M., will be examined. It is claimed that the government has a number of letters signed by Shepard and addressed to Barth, promising that if he (Barth) would assist him in his defense, he would be paid just as soon as Shepard could realize on the sale of a lot of the opium. These letters were turned over by Barth to Dist. Atty. Schoonover yesterday.

Charles J. Kelly appeared for Shepard and Noleman & Smyser for Brown. The high spot of the evidence was that furnished by James R. Davies, a chauffeur, residing at No. 3017 K street, San Diego. He testified that he met both Brown and Shepard at the Barbara Worth Hotel, San Diego, in August, last, where an agreement was entered into by which he, Brown and Shepard were to make a trip to the Jacumba Mountains, south of San Diego, for a load of opium. When it came to starting, he said, Shepard begged off, saying that Brown knew

TREND OF THE FINANCIAL NEWS.

CHIEF EVENTS OF YESTERDAY.
(At Home.) Reports issued by the government show that our export trade during September jumped tenfold, principally in all kinds of foodstuffs. Only one item—cotton—showed any material decline. One order was received from England for 600 portable houses, to be shipped immediately, the price being no consideration. Flour shipments are enormous. The Central and Western States report a general revival in all business lines, with much new building going on. A new order issued by the Treasury Department setting a standard of value for bank loans is also expected to materially aid the money markets. One item of great importance was the statement from London that American merchants were apparently making no effort to secure the vast amount of business incident to war preparations, bids for all kinds of wearing apparel and foodstuffs being unnotified over there.

(Abroad.) The French moratorium has been partially rescinded, with promises of full cancellation in December. The German and Russian grain crops are reported from 8 to 15 per cent. short of last year, with an increased consumption.

(For details see financial page.)

LOOKING AT THINGS.

A mirror does well enough for your own face, but when it comes to anything else you naturally prefer the object to its reflection. Now if somebody made a mirror which showed you all sides of a thing with its top and bottom and the inside of it, too, you would never want to see anything excepting through that glass of magic. Perhaps there is a vision like that within ourselves. It may be that the mind and its windows hold just such mirrors of light. At least one might look at all sides of a friend's nature or a big cause with that breadth of vision before caring to question or daring to condemn.

TWENTY-ONE CHERISHED LOSERS.

The Progressive party has Senatorial candidates in the field in twenty-one of the thirty-two States in which Senatorial elections are to be held. In no State, says the Washington correspondent of the Boston Monitor, does the Progressive nominee have any chance for election, and it is the expectation of the Democrats that this, in numerous instances, will result, as was the case in 1912 and in elections since that time, in such a division of the former solid Republican vote as to increase the outlook for Democratic victory.

LOOK AT YOUR TAX BILLS.

The tax bills are beginning to come in. Look at them. Don't pay attention to what the Progressive papers and Progressive orators say, but look at your tax bills. They speak for themselves, and speak accurately and eloquently. Are your taxes higher than a year ago? The apologists for the Progressives may juggle with figures; the Board of Control may issue ambiguous statements showing how it has saved by cutting down on postage stamps, or something as ridiculous, the half-million dollars that it has cost the State; the administration press agents may declare that the corporations and not the people have paid for the political luxuries of the Johnson regime; but the undeniable and intrusive fact remains that your tax bills have increased. Look at them and be convinced.

HOT IRON INVENTIONS.

The small demagogues exhibited by Congress in exempting from prosecution under the Clayton anti-trust law all persons who violate it, provided that they are members of agricultural, horticultural, fraternal or labor organizations, deceives nobody. No farmer ever menaced with violence another farmer who worked over time hoeing potatoes. No orchardist ever proposed to dynamite the barn of another orchardist who sold his oranges for ten cents a box less than the market price. No Freemason, or Odd Fellow, or Knight of Pythias, or Elk, or other "fraternal" ever best to a pulp a peaceful citizen whose wife would not allow him to "joke" anything.

HAVE WE FORGOTTEN?

Have we forgotten the brave days of old, when the beleaguered nation cried to the members of the party of Lincoln to save it from destruction and out of the homes of the North the loyal Republican masses came with the war cry for union and freedom on their lips, and sang—
"And shall the nation die, and shall the nation die?"

Then twice a million northern men will know the reason why?
Out of the shops and the farms; out of the counting-rooms and the colleges they came. God, how they came! Graybeards and men of middle years, and youths with the down upon their cheeks moistened as with a charm by the farewell tears of mother and sister and sweetheart and wife. With helmets high set and faces set toward the Southland they went—
"Marching along, marching along,
For God and for country they went marching along."

They faced the stormy shock of battle at Shiloh and Antietam and Gettysburg. They climbed the red path to immortality at Chickamauga and Lookout Mountain. They carried the banner of Union and freedom, the banner of Republican principles, over the fields of carnage. Blood-spotted and bullet-shredded they bore it, dying still, triumphant still, until it waved in victory from the Potomac to the Gulf.

The Republican party has forgotten those who mistakenly assailed the life of the nation. It holds no grudge against those of opposite political faith who do not agree with its economic and financial policies. It respects those who oppose it. But for the recreants who would ignore and belittle its past and betray its present and who perambulate the land with the lying cry, "The Republican party is dead, let us bury it in a Progressive shroud. Let us seize or stab its organization and insult its loyal members." It has no words save of defiance and contempt.

The Old Guard and their children and children's children are not dead. They are very much alive, as they will make manifest on Tuesday next.

REASONS FOR DEFEATING JOHNSON.

Aside from his overbearing, egotistical, obnoxious personality, there are thirteen reasons why Hiram W. Johnson should not be re-elected Governor of California.

1. Because he has never explained why he was discharged from the service of the Southern Pacific Company for treachery.
2. Because he has never refunded to the widows and orphans who were defrauded by Dalsell, Brown the fees which he received for defending that scoundrel.

3. Because he co-operated with Earl in disfranchising the Republican voters of California so as to compel them to vote for him as Vice-President.

4. Because he has never accounted for the \$5000 per annum of secret service money which he expended while canvassing for his election to the Vice-Presidency.

5. Because he compelled the employees of the State on the harbor front at San Francisco to pay \$10 to \$50 each toward the expenses of his canvass.

6. Because he practically bribed with promises of office members of the Legislature to vote for John D. Works for Senator when they had been instructed by their constituents to vote for A. G. Spaulding.

7. Because he aided to legislate Alden Anderson out of office as Bank Commissioner in order to make room for his friend, W. B. Wilson.

8. Because he gave jobs at the cost of the State to four former attaches of his law office and secured a place for his son as special counselor of the banking department of the State.

9. Because he systematically persecuted Secretary of State Jordan because that officer refused to leave the Republican party.

10. Because he paroled and released from deserved imprisonment eight rapists, and refused a hearing to seventy-eight criminals who were convicted of crimes against property.

11. Because he aided to procure the passage of a law authorizing him to appoint a Commissioner of Corporations at \$5000 per annum, with authority to appoint an army of clerks to harass and possibly to blackmail all the investment companies and investment brokers in the State.

12. Because he instigated and aided in the passage of a law to appoint three commissioners at \$5000 per annum and a lot of deputies, stenographers, surveyors, lawyers and assistants to compel the small farmers of the State to prove their title at an enormous cost.

13. Because he instigated and approved legislation that increased the expenditures of the State millions of dollars for no other purpose than to give places to a lot of his satraps and followers.

There are a few other reasons for voting against Johnson that The Times may assign hereafter.

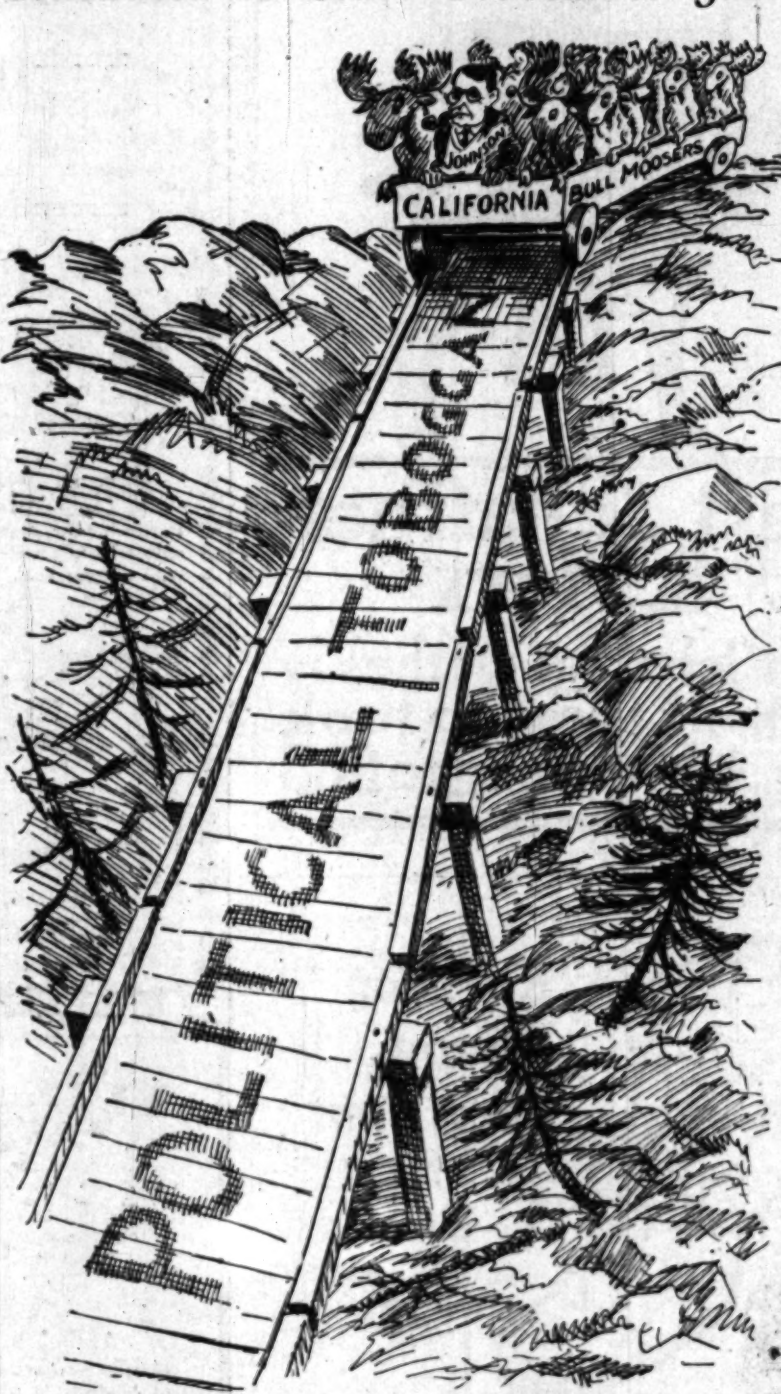

BEIGIANS FOR CALIFORNIA.

Dispatches yesterday verified the news that 7,000,000 Belgians are on the verge of starvation, that pitiful hordes from the stricken country are daily pouring into England, Holland, France and that the task of taking care of them is proving almost beyond the capacity of those nations.

Therefore the opportune project to create a Belgian colony in California, to bring here the farmers, the stock raisers, the weavers and all competent to open up new industries with which the United States is unfamiliar, opens up extraordinary possibilities for offering hospitality to a stricken nation both to their and our advantage.

There are thousands of acres of fertile land in California where climatic conditions offer the utmost encouragement to the agriculturist. Nowhere in the world can farming be carried on under more favorable conditions. And Belgium is an agricultural country. The English authorities declare that the great majority of the refugees now pouring into Great Britain are of the rural type, men who have been in the habit of cultivating the land to the limit of its capacity by the most modern and scientific methods, for there are 700 persons to the square mile in Belgium, and intensive and economical cultivation has been essential.

Scheduled to Start November 3rd.

on the land is probably the greatest idea of the kind ever mooted. It is easy to imagine with what a radiance of new hopefulness these sad, despairing people would hear that such a plan had been made possible.

It would, of course, be a tremendous undertaking. The transport alone offers difficulties of great magnitude. But an idea to bring them by Pacific Coast steamers via the Panama Canal is regarded as quite possible.

The financial end of the proposition would call for the greatest consideration. For, while these people are not paupers in the ordinary sense, very few of them could even pay their own expenses across.

Besides being given generous terms for purchasing land on a ten-years' payment basis, they would have to be loaned sufficient capital to provide house, agricultural implements and maintenance supplies while they are making good. But all of this is regarded as quite feasible by our financial magnates.

The United States leads the world in colossal financial undertakings and this, they consider, would offer no insuperable difficulties.

But emphasis must be laid upon the point that these people must not be exploited. While the whole idea must necessarily be arranged upon a profitable basis, every safeguard must be installed for protecting them against exploitation. To this end it has been suggested that a State mortgage bank be created to take entire charge of the financial end, and that a committee of men of high repute be appointed to investigate all offers of land for the scheme.

There remains, then, the one question of the immigration laws. The United States government would have to be asked to waive many of the restrictions now in force against pauper aliens. Since it is not proposed to bring these people over as contract laborers, since it is not proposed to import ordinary laborers of any kind for any of the industries already established in this country, but only such as can be settled on the land to the land's advantage, or such people as are skilled in industries unknown in the United States, since, in fact, it is only suggested that we should bring the kind of people the country needs, it should not be impossible for the government to consider the plan with favor. It is an unusual emergency, an unusual opportunity, and it would provide a merciful way out for many thousands of our unfortunate fellow-men who are at this time homeless, penniless, hopeless.

Yet they are an industrious, courageous people, these Belgians. They hold a high place in the reputation of nations. Religious, law-abiding, peaceful, self-respecting, they had earned the friendship of all, the enmity of none. Their case is peculiarly ironical, for they had been at more pains to maintain friendly relations with all nations than any other country in Europe. They are skilled artisans, skilled artists. The architectural beauties of their country made it the show place of Europe. Their cities were a delight to the eye and the mind, and every inch of their country was cultivated with scientific industry.

Their women are gentle, kindly, and many of them (often whole villages) are skillful lace workers, weavers, glove makers. In all the rural districts the women work on the land. With them working on the land takes the place of athletics. It is one of the sights of Belgium to see those husky maidens in short, full petticoats and thick sound shoes tending the great market gardens.

To found a colony of these people in California could bring us naught but satisfaction.

No Chance.

If grandpa'd let his teeth alone perhaps some day they'd sprout.

But chucka, they never get a chance—at night he pulls 'em out.

"I AM THE VOTE."

BY BURL ARMSTRONG.

I am the vote.
I have been caajoed, flattered, fooled, outraged, bullied, bought, sold.
My day of supremacy is at hand.
My head I hold high; I hold myself proud of my strength; I glory in my power.

I am supreme!
Am I better than I was?
Is my condition improved?
Have the years added to my purity and my power?

Have I made the factory, the warehouse, the store, the hotel safer and more sanitary?
Have I helped myself with this priceless possession I hold?
I am the silver mallet that drives the golden spike.
But where's the spike?
Has the Progressive legislation I have sought been only excessive legislation, after all?

Have I made commissions that are agencies of prodigal waste?
What have they done for me?
Except to crucify me every two years?
Have I strengthened education?
Have I reduced crime?
Have I weathered hysteria and ridden safely through storm?

Have I decreased the death rate?
Have I prevented the trebling or quadrupling of taxes during the years of my thralldom?
Where have I profited by the numerous commissions, the multiplying jobs?
Did I vote myself one when so many were being voted?

Do I advantage myself by the ceaseless, exasperating inspection of factories, offices, shops, hotels, stores?
I am supreme.
Where is my share of social and industrial justice?

Have I paid the price?
Have I more of this earth's goods than when I first planted the seed of my suffrage?
Where is my pro rata of the six million saved the State?

Is my telephone cheaper?
Is my fuel costing less?
Does my food draw less upon my purse?
Have I more protection?
What is this hue and cry about ME?
How long have I slept?
The silvered luster of a harvest moon made me restless.

A strutting rooster in the State corral crowed and sought favor of all the chickens.
From out of the desert came the bray of the Wild Ass.

From Fresno way I hear the chattering of an educated magpie.
Out of the Sacramento Valley came a blatant voice and the aroma of hop.
I heard a rustling among the leaves of Civil Service.

The faraway footfalls of a visitor echoed through the unoccupied offices of the Capitol.
The shrubbery in my garden is being sprayed with poison as I shake off my lethargy.

I rub my eyes into a realization of the dawn of my day.
I am roused by my new-born strength.
Into my ear is poured the purr of honied words.
I am told of money saved.
I am told government by tradition is past; that health and happiness and welfare of humanity are mine for the asking.

What, again?
I am told once I had a political master.
Now I am free. As I slept four years I was no longer slave.

There is computed for me in the cost of business the human deterioration and breakage, as in broken machinery.
Is business more human?
Who pays the price?

Before my lately-aroused eyes are laid long fiscal reports showing where millions have been saved to me.
Where are the millions?
Did I get even so much as a jitney?
Or was my tax bill rebated?
My alumber was peaceful.
I awake to learn of all the things that were done for me while I slept.
To me the reports are made.
For I am supreme!

My human resources have been conserved.
Who conserved them?—but no matter.
I am menaced by predatory interests.
Old stuff.

As I slept the present administration rose to a high degree of governmental efficiency.
So I'm told.
As I slept I dreamily nominated Ehleman.

But I was asleep.
Honestly, order, economy have come while I slept.
Hiram done it—single-handed and alone.
Private interest, intolerable tyranny have been removed.
And still I slept.

I dreamed that I helped extravagance, extended personal power, created high-priced jobs, regulated the habits of my neighbors, made possible political trickery and chicanery, destroyed political freedom, built a powerful machine to perpetuate the insatiable lust of one man.

It seemed so real!
I am come back to consciousness.
Over Hiram's shoulder two great, luminous eyes are peering into my blinking ones.
What am I going to do?
I am supreme.

I am the judge and the jury.
I gird my loins with strength and rise to assert my supremacy.
My day of reckoning is here.
Presently I am whirled into a vortex where paid exhorters bellow their wares and clamor for my attention.
I am sucked into the swirl.
I am lost.
And I'm going back to sleep—pretty soon.

the territory covered by his organization. Mr. Dunn asserts that the country districts of Northern California, like those in the southern part of the State, will vote heavily against the eight-hour measure. He is less optimistic, however, regarding the city vote. On receipt of the results of the Dunn canvass, Pitt P. Hands, manager of the Farmers and Fruit Growers' Federation, said that practically identical conditions obtain in the south.

As election approaches, interest among the wage earners of Los Angeles in the defeat of the law increases daily. The recent convention of farmers which denounced the law as practically confiscatory of their property, and ruinous to the citrus industry, attracted the attention of the employees of the Los Angeles manufacturing, wholesale and retail firms in far greater measure than even the warnings of the various employers' associations.

Yesterday employees of twelve trades and occupations ranging from printers to cigarmakers, delegates to committees which they call the "Ballot Marking Corps" to spend three hours each evening calling on the telephone all industrial workers of their occupations urging them to vote no on proposition No. 3.

Delegates were also selected to go to San Bernardino this morning, where a mass meeting of 2000 Santa Fe shop men is to be held, and assure these men of the antagonism to the law of the ironworkers, moulders, patternmakers, machinists and boiler-makers of the open shops in Los Angeles.

"DRYS" SPEED UP HOT CAMPAIGN.

ORATORY TO BE SPILLED ALL OVER THE COUNTY.

Speakers Enlisted for Series of Wind-up Meetings in Churches, Public Halls, on Street Corners and Wherever an Audience may be Assembled.

The "dry" campaign in Los Angeles and vicinity is winding up with great earnestness, with a large number of public meetings planned for the remainder of the week.

Nine meetings were held last night. John P. St. John, former Governor of Kansas, addressed a large crowd at Watts; Rev. Matt Hughes spoke at Redondo Beach; Day Ehrenfeld, Bell Station; S. W. Odell, Hollywood Woman's Club; Lieut.-Gov. Wallace, Highland Park; Ebbell Club; Rev. Scott Anderson, Moneta and Manchester avenues; O. W. Blain, Tabernacle, Springdale and Compton avenues. Senator W. E. Brown acted as an "information bureau" at a non-partisan meeting of the Congressional, United Presbyterian and Arlington Heights Methodist Episcopal churches held at the Church of the Messiah.

A big meeting is planned for tomorrow night at the Universalist Church, No. 1213 Alvarado street, when five speakers, representing as many parties, will talk on the subject "Why I am Going to Vote for California Dry." These speakers are Ex-Judge Waldo M. York, Republican; David Evans, Democrat; William E. Brown, Progressive; Fred F. Wheeler, Prohibitionist; Mrs. Laura Martin, Socialist.

Ex-Gov. St. John will speak tonight at the heart of Los Angeles, where five speakers, representing as many parties, will talk on the subject "Why I am Going to Vote for California Dry." These speakers are Ex-Judge Waldo M. York, Republican; David Evans, Democrat; William E. Brown, Progressive; Fred F. Wheeler, Prohibitionist; Mrs. Laura Martin, Socialist.

For centuries men have walked in the footsteps of their fathers.

The great majority follow precedent. A few raise their eyes to the sky of opportunity and leave the senseless trodden path of the ages to gain for themselves the advantage of self-thinking and self-action.

The Directors of the Hibernian Savings Bank are thinking men and men of action. The opportunity to offer Savings Depositors five per cent. compound interest, on their money presented itself when they decided to locate this bank upon the second floor of the centrally located Hibernian Building, corner Spring and Fourth streets, and thus are saving enough in rent to pay 1% more than the rate usually paid by ground-floor banks.

Make your savings earn a maximum interest while you are waiting for an opportunity to invest it.

GLOBE TAILOR-MADE UNDERWEAR FOR WOMEN

The Union Suits come in many styles and many weights; and are made in cotton, wool and silk; the fabrics are scientifically sized to conform to the lines of the figure; Globe Tailor-Made Underwear fits and keeps its shape and size after washing.

Sold at various prices to fit every purse.

Globe Underwear for Children.

Next year's underwear for your child may be the same as this year's if you consider these points before you buy: First, the material must be good; second, the fabric must be nonshrinkable (for if the garment constantly gets smaller and the child grows bigger, it is plain that the time will come very quickly when the garment will be too tight to be worn.) Third, the garment must be big enough to allow for growth.

Globe Tailor-Made Garments conform to every one of these requirements and consequently little time is required to keep them in repair, while their superior material, non-shrinkable quality and liberal sizing assure two seasons' wear or more.

(Kaltwear; South Aisle)

The Governor's Obedience. Some considerable strife was shown at the Women's City Club, when Gov. Johnson "just dropped in" to make a little speech.

The Republican women in the city, who were gathered at the club, were interrupted, and the speaker, who was on the platform, was told to get down. Many thought it a strange thing for the Governor to appear at such an undignified and promiscuous gathering. The Governor, however, since his name was not on the program and the speakers had been announced.

Mrs. Shelley Tolhurst, president of the club, is a Progressive politician, and she said that she was the strongest champion of the cause, which was doubted by several of the present. They remember the fight for suffrage and how the Governor succeeded in well in saying nothing at all.

And when Mrs. Tolhurst closed her remarks by recommending the Governor to the club, many of the Republican members, themselves as being seconded, the approval of the club is not particular.

The Republican members of the club, as well as many of the fair-minded "Progressives," themselves as much distressed by the obstruction of Gov. Johnson by way of mollifying them, the members responsible for the episode urged them to leave the club. The Governor, however, Monday. It has not been announced whether Capt. Fredericks will stay at the club or not.

TEAMSTER IN BANKRUPTCY. E. R. Graves, a teamster, owes \$1,000, according to a petition filed yesterday, and of this amount \$100,000 is secured. His assets are valued at \$100,000, of which \$40,000 is in the shape of real estate, with a \$100,000 mortgage on it.

PART III

COAST MAGNATES MAKE A FEW RADICAL MOVES.

PLAYER LIMIT IS REDUCED.

Only Eighteen Men Allowed on Pay Roll.

Double Umpire System Also Abolished.

U. S. Smith is Traded for Catcher Yantz.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) SAN FRANCISCO, Oct. 27.—"If organized baseball is to survive on the Pacific Coast," said President Baum, a general policy of retrenchment must be inaugurated and strictly followed. There must be an end to competition for players at excessive salaries, "and an end to overloading clubs with players."

CUT DOWN. Retrenchments in the way of an eighteen-player and \$100 salary limit per month and a single-umpire system were adopted at the evening session. This will mean cutting down the expenses materially. Last season each club carried twenty players and had a salary roll of \$10,000. The abolition of the double-umpire system will put three of the diamond officials out of employment, and it looks like Finney, Held, Phyllis, McCarthy, Guthrie and Hayes will have to hustle for berths.

SCHEDULE. "Business of mapping out a schedule was taken up and it was voted to open the season March 23 and close on October 17, making the regular season of thirty weeks. The season will open one week earlier, however, and accordingly close earlier. The teams will open with Oakland at San Francisco, Portland at Los Angeles, and Venice at the sixth city to be named later. The pennant was formally awarded to Portland and Judge W. W. McCredie responded with a neat address. Adjournment was taken until February 17, the date of the spring schedule meeting.

TRADES. During the course of the meeting talk of trades was continually in the air. Managers McCredie, McLean, Del Howard and Christian were frequently in secret conference, but up to tonight only one deal was put through. That was a minor affair, with Nap Hogan giving his second-string pitcher, U. S. Smith, for McCredie's second-string

Like the Rest.

DODE PASKERT EXPECTED TO JUMP TO THE FEDS.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

CLEVELAND (O.) Oct. 27.—Dode Paskert, the Cleveland boy who plays in the outfield for the Philadelphia National League club, probably will be jumping to one of the Federal League parks next season. Paskert has received many tempting offers from the Fed. and, as his three-year contract with the Phillies expired this season, there is nothing to hinder him from making the leap. Just one thing kept Paskert from jumping last season—the fact that his contract with the Phils had one more year to run. Mordca Brown, manager of the St. Louis Fed, last spring sent Paskert a half-dozen telegrams asking him to jump to the Fed club. Brown also was angling for Ray Collins of the Boston Red Sox.

FIVE CITIES ARE AFTER THE MISSION FRANCHISE.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SAN FRANCISCO, Oct. 27.—Five cities, Seattle, Salt Lake, San Jose, San Diego and Sacramento, are in the field to secure the forfeited franchise of the Sacramento-Mission club. President A. T. Baum has appointed a committee of three, made up of himself, J. Cal Ewing and F. W. Leavitt to decide where the club will be placed next season.

President Baum, spokesman for the committee, declared that the applicants will be heard and the one presenting the best proposition will be awarded the franchise. Seattle has been anxious to break into the Coast League circuit, and at this writing seems to be favored because it is the largest city, and better prepared to support class AA ball.

Salt Lake has submitted a proposition to Cal Ewing, and San Diego has likewise delegated Ben Berry to present its application.

Tom Stephens is advancing the candidacy of San Jose, and it is said that Sacramento has expressed a willingness to get the franchise back.

JACK RYAN WILL TAKE TEAM DOWN.

LOCAL HEAVY ORGANIZES A BALL CLUB FOR SAN DIEGO.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) SAN DIEGO, Oct. 27.—Jack Ryan's All Stars will play a local team here Saturday and Sunday at Athletic Park. Ryan and Fanning, the Red Sox, are to pitch Sunday, and Eshme will pitch Saturday. The local team is not yet made up.

MAIER AFTER TWO NEW MEN.

President Maier of the Tigers is already considering means by which to strengthen the club for next season. Two of the men sought are Ping Bodie and Andy Slight of the White Sox. Bodie, while not in the game regularly last season, is regarded as the best hitter on the Chicago club. Slight is pronounced by Jim Scott as the best-hitting catcher in the game today. Injuries kept him on the bench a good part of the season. Anyway, with Slight in shape, there was little chance for any other backstop to horn into the game.

CATCHER. It is hard to tell who got the best of it. Maier, who talked business with the other three managers, but nothing came of it. It is no secret that San Francisco wants Rube Gardner and Elmer Zacher, but Howard did not submit any proposition that struck Christian's fancy.

ALEXANDER TOO GOOD FOR JAMES.

PHILLY HEAVY LETS OPPONENTS DOWN WITH ONLY THREE RINGLES.

(BY A. P. NIGHT WIRE.) LEWISTON (Idaho) Oct. 27.—The all-star Nationals defeated the Americans here this afternoon, 4 to 1, errors contributing to all scores. Otherwise, the game was a pitchers' battle, in which Alexander had the better. Score: Nationals, 4; hits, 6; errors, 4. Americans, 1; hits, 2; errors, 4. Batteries: Alexander and Kilmer; James and McAvoy.

ROLLER SKATERS ON HALLOWEEN.

Hobgoblins and jack-o'-lanterns, yams yams girls and Mephistos will figure in the fancy-dress Halloween roller skating festival to be given by the Entertainment Committee of the Roller Skaters' Association of Southern California at the Broadway rink. Special lighting effects will give the big rink a weird appearance, and the unusual costumes of the skaters will produce an almost spooky atmosphere. The Halloween hop is a new dance to be introduced on the rollers.

SOLLY BURNS TO FIGHT IN SOUTH. WILL MEET FRANKIE KIRK AND WINNER WILL GET RED WATSON.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) SAN DIEGO, Oct. 27.—Solly Burns, San Diego lightweight, and Frankie Kirk will fight twenty rounds Friday night, when the first match between lightweights, instead of bantams, since the revival of boxing in San Diego will be staged here.

Both boys are training hard, and will train down to 133 pounds by 6 o'clock Friday night. The winner hopes to get a match with Red Watson, Babe Piccolo or Joe Asvedo, or some lightweight of that class. Young Frankie Sennet, bantamweight of New York, has been signed up by Don Gritton for a match with Roy Moore here, November 4. It will be twenty rounds. The winner will box Eddie Miller, November 12.

TOO COLD FOR SPEED DEMONS.

(BY A. P. DAY WIRE.)

CHICAGO, Oct. 27.—Races to decide the speed boat championship of America were called off by the owners of the three contesting boats today because of cold weather. The first race of the series was won by the Disturber IV of Chicago.

BILL TAYLOR IS BACK FROM TRIP.

ALL OF THE DRIVERS NOW ON THE COURSE SAY IT'S A HARD ONE.

BY AL G. WADDELL. The trail of the Cactus Derby is being kept hot by the drivers who are training for the world motor classic which is to start November 3, and, according to the reports of the drivers, the conditions of the course are ever changing.

TAYLOR BACK. Billy Taylor, the local boy who is to pilot the big Alco in the Phoenix grind, returned yesterday from a run over the course. His face was burned by the desert sun. His lips were cracked and bleeding. He reported that the weather was really cold.

He left Phoenix Sunday and encountered almost every condition of weather and road. The heat of the desert was almost unbearable, while in the mountains of Arizona, around Prescott, the weather was really cold.

VAN COURT ADVISES F. WELSH.

CHAMP HAD BETTER KEEP WEIGHT LOW.

FIGHTING AMONG LEGITIMATE LIGHTWEIGHTS IS EASIER.

What is to become of the lightweight class now that all the legitimate lightweights are considered back numbers? Joe Rivers, Joe Mandot, Leach, Cross, Ad Wolgast and Charlie White can none of them be considered for a minute as legitimate lightweights, the present champion.

With the single exception of Leach, all these boys can easily make 133 pounds ringside.

Now, Welsh, like Ritchie, insists upon the weight being set at 135 pounds at 2 o'clock the afternoon of an evening contest. Freddie would be between the "devil and the deep sea."

Packy McFarland is after him for a match at the weight he insists upon. Willie Ritchie would, no doubt, jump at the chance for a return match at that weight. Then there remains Hummie Duffy and Jack Britton, who are also to be considered if Welsh consents to meet any of these boys at 135 pounds.

What is Welsh, a lightweight or a welterweight? Does he intend to box as a lightweight or a welter? In my opinion, if Freddie is wise he will insist on 133 pounds, as he

SHERMAN INDIANS WILL PLAY FOOTBALL AGAIN.

BY HOWARD W. ANGUS.

THE Sherman Indians are to play American football again. There is news that should stir every true lover of the sport and bring back memories of those gigantic conflicts when the Indians battled with Stanford and California at the old smashing game.

The first practice was held last night and between forty and fifty braves answered the call. The Indians themselves were wild to get back into the game. They were all

excited yesterday at the thought of doing what they once did—of being the Carle of the West.

H. E. Carner, the disciplinarian of the institute, is an old football star, and will take charge of the squad this season. Joe Shouder, the one-time great Indian end, will assist at odd moments, as will Lube, the monster tackle.

The Indians hope to get post-season games with some of the southern colleges.

The Economic Effect of Prohibition on Wine, Table and Raisin Grapes

By FRANK T. SWETT, Member State Board of Viticultural Commissioners.

would have to go without.

FACTS ABOUT THE GRAPE INDUSTRY.

What are the facts as to the three divisions of the viticultural industry, raisin, wine and table? Estimates vary slightly; no one has ever counted every vine. But taking figures from a disinterested and authoritative source, "Wickson's California Fruits," sixth edition, page 57, we get figures from which some comparisons may be made. They apply to 1910.

The vineyard area is set forth as 346,373 acres. About half this enormous area is in wine grapes; there is about 110,000 acres in raisin grapes, and the remaining area in table grapes, about 50,000 acres, or one-seventh of the whole. California boasts of its immense orchards, outside of oranges and lemons, falls short of the vineyard acreage.

We are all proud of our great orange industry. Do you remember the anxiety of 1913 made us fear that a large part of the groves of Southern California had been destroyed? Do you remember how bankers held meetings and conferences, and how all of us, from north to south, waited anxiously and sympathetically to see if the trees would recover or perish? Do you remember how jubilant all California was when the new little

effectively bar out of our State all income from the export of wine, amounting in a ten-year period to probably \$100,000,000 to \$150,000,000—enough to pay every farm mortgage in the State twice over.

TABLE GRAPE SITUATION.

Some of the "dry" leaders urge that prohibition would be a BENE-FIT to the wine-grape growers; they could graft over their vines into raisin grapes and table grapes! This may look easy to the orator who knows nothing about it, and it may look easy to some of their auditors who know nothing about vineyards. What are the facts?

There is already an overproduction of table grapes in seasons of full crops, and thousands of tons are annually sent to the wineries. There are 10,000 acres of table grapes capable of producing 10 tons to the acre, or a total of about 100,000 carloads. Where is the market for 10,000 carloads? There is a market for about 4500 carloads in the Eastern States and a thousand and care in California. In past years, with the exception of 1913, markets have been glutted for weeks at a time, and thousands of carloads have been sold below cost of production. In 1913, owing to a very short crop of eastern grapes, and owing to a shortage of all other crops, the market was better, but a short crop of grapes in California prices were profitable.

There is not room for any sudden and large increase of output. As the country grows in population, and as the distribution and methods of handling are bettered, the market will gradually grow. But a sudden increase would be a disaster. If the surplus grapes cannot be sent to the wineries, for the next few years, the table grape acreage will probably have to

causing sleepless nights to many heads of families who have come to California and ventured their savings and their labor in a pursuit that has for half a century been definitely encouraged by the State of California.

THE GRAPE JUICE THEORY.

To be told by visionaries that the wine grapes can all be made into grape juice is a poor consolation. It is the wild dream of an impractical theorist. California has been at it for fifteen years, and many hundreds of thousands of dollars have been wasted in trying to make a market for California grape juice. Unfortunately the market demand is almost exclusively for the tart, musky-flavored eastern grape juice, made from the Concord grapes grown in New York and Michigan. Our grapes make a sweet grape juice, low in acid, and of no distinctive flavor. Factory after factory in California has failed. Wholesome grape juice has been made, but it has not appealed to the popular taste, and the results have been absolutely discouraging.

California is now producing less than 100,000 gallons of grape juice a year, and the output, instead of increasing, is decreasing.

GRAPE SYRUP.

Hard put to find excuses, the "dry" abolitionists are even arguing that the grapes can be profitably made into grape syrup. Grape syrup is already produced, but it is all used in the sweetening of port and sherry, for no one has been able to make a market for it for table purposes. It cannot compete with corn syrup in price. If, as the "dry" side claims, it can be sold at \$1 a gallon, then someone can make a fortune buying it at the going price of about 50 cents

of union of the previous graft, in which case the Muscat or other graft will push out roots which will be killed by phylloxera, thus causing the vine to perish; or if grafted above ground, four or five inches, only a small percentage of the grafts would grow. The grafting proposition on such vines five years or over is a practical impossibility, and every vineyardist knows it. It looks easy to an orator on a platform. It looks impossible to a vineyardist working among the vines.

Among the agricultural alternatives suggested by optimistic prohibition orators I must mention a few more. But first I will define an "optimist." In the words of a clever Los Angeles lady, "An optimist is one who doesn't care what happens as long as it doesn't happen to him."

Now the ruin of our vineyards and vineyardists does not appeal to the sense of justice of the ordinary man or woman. So the optimists volubly announce ways and means of averting the disasters that threaten and women know would follow.

Miss Marie Brehm, recently arrived from the East, has a real clever suggestion which she makes at talks at women's clubs. "Why," she says, "the wine grapes could be packed in baskets and sold at a reasonable price would be in great demand."

If California cannot sell the product of 40,000 acres of good table grapes, but has to send a third of the table grapes to the wineries, how long would it take to educate the public to consuming the product of 170,000 tons of wine grapes, a tonnage of about 400,000 tons? Besides, if Muscats and Malvases and Tokays, beautiful and delicious, go begging, where would Miss Brehm's clients be found for musky, sticky, tart, thin-skinned Zinfandels and Burgers?

I have a neighbor, a crippled man, who through twenty years of industry and frugality has created a little hillside vineyard home of twenty acres. He is rearing a worthy little family. The vineyard passed away a few years ago after a long and costly illness.

Not long ago he asked me: "What will become of my family if the laws prevent me selling my grapes and my vineyard must be uprooted? My land is too steep to work, and it would produce very small crops of hay that would not afford a living." His case is typical of many. What could I tell him except that the people of California, in my opinion, are too just and too wise to needlessly ruin their neighbors?

CACTI THEORY ABSURD.

I was shown a paper, the California Farmer, edited by Horace Greeley Keesling. The editor sagely observes, in an article entitled "Vineyards vs. Cactus," that upon lands that will not produce much besides grapes, "the spineless cactus could be planted with excellent success and would prove of far more value than in the production of wine."

So I started to figure what my neighbor could do. The Burbank Company telephoned that it would take 1800 slabs per acre, at \$300 per thousand slabs. This is only \$540 an acre. If my neighbor has \$10,800 to spare, and enough to provide food and clothes and shoes for the children for three years, he can follow the editorial "tip" of Horace Greeley Keesling, agricultural editor.

It would only take about \$15,000,000 cash down to entirely cancel the rest of the vineyards. Subscriptions will be gratefully received.

I'm afraid that Horace Greeley the First was a better farm adviser than Horace the Second.

JUSTICE TO THE GROWER.

To sum up this rather long argument the plea that vineyards can be converted into other crops to the advantage of the grower is unfounded. The truth is that thousands of growers would face foreclosure and bankruptcy. Let us come to another point.

GRAFTING IMPOSSIBLE.

The voluble "farm advisory board" of the Dry Federation when advising our grape growers how to get rich by grafting, forgot one trifling point. There are unfortunately some things that can't be done, even in grafting, except in the imagination of a self-constituted viticultural advisor. The less one knows about things, the easier it is if one is financially irresponsible, to advise the other fellow.

Half the wine grapes of California are grown in the coast counties. The greater part of the vineyards in that district are already grafted upon resistant roots, mainly St. George and 3309. Now, if the vineyardists are to be grafted, they will have to either go deep into the ground, well below the point

Who are our vineyardists? A very large portion of them are settlers who have been invited to come to us. Most of the vineyards of the State are less than 10 years old. As near as I can figure, the average vineyard is not over twenty-five acres in extent. The average grower is a man of limited means. The settler in a new land, starting a new project, whether an orange grove or a vineyard, cannot carry it through its period of planting and waiting until it is in full bearing, without borrowing money. In 1910 there were in California over 28,000 mortgaged farms carrying a debt of over \$60,000,000. The vineyards, a large proportion of which have been planted at an expense of not less than \$100 an acre up to the fourth year, besides the cost of the land, carry their proportion of debt. In one county over \$1,500,000 is loaned on vine-grape vineyards. In many cases the loans are in excess of the value of the bare land. In such cases, should legislation render the vineyards valueless, do you think any bank could afford to finance the grower and carry him till an orchard could be brought into bearing? The banking laws would interfere, even if the banker were anxious to help. Principal and interest come due; there is no income; the grapes cannot be sold because the wine-makers cannot make wine and ship it East. Foreclosure ensues. The grower moves off, bankrupt, and the bank is forced to sell the land for what it will bring at forced sale.

This great State of California, which has so continuously and consistently encouraged viticulture; this community, which, through Chambers of Commerce, through advertisements, through a thousand agencies, has invited this man to come to us. As a community, can we afford to ruin him?

CONFISCATION WITHOUT COMPENSATION.

I say that if we, as a State, make it impossible for him to sell his product, that we owe him full compensation for all that he may suffer at the hands of the voters of California.

The sudden destruction of our wine-grape industry would be a public calamity.

One of the orators drawing a comfortable salary for advocating this destructive amendment said a few weeks ago to a friend of mine: "I'm going into this campaign with a heavy heart. It isn't just, it isn't wise."

"Then why do you advocate it?"

"Well, if I thought there was any danger of its passing."

"Then why speak of it?"

"Well, if we didn't keep the ball a-rolling, our organization would go to pieces, and the subscriptions would quit coming in, and it would be very hard to reorganize in two years or four years from now."

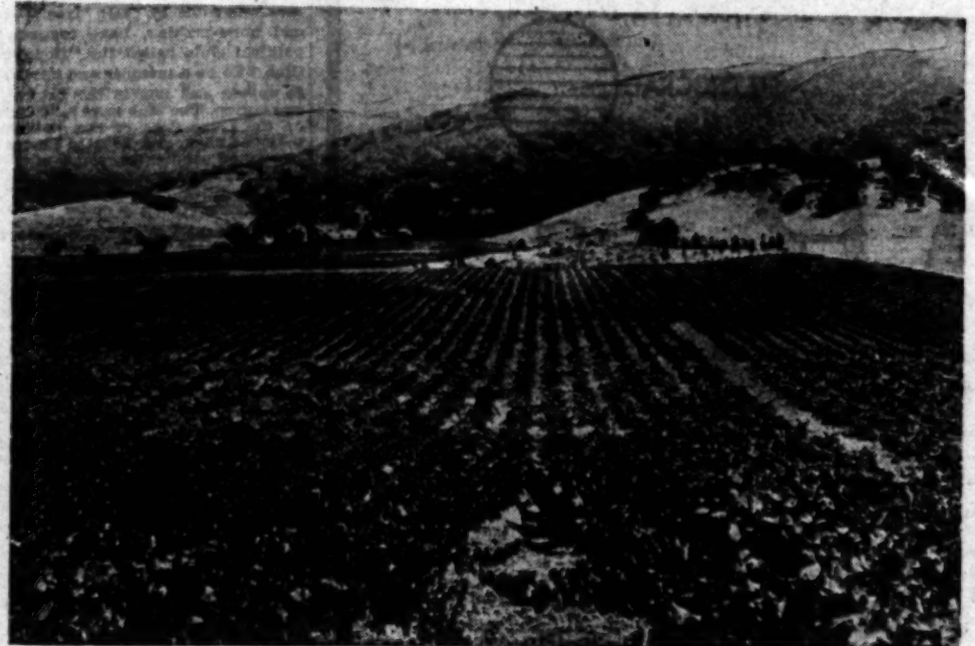

And he said: "If it should pass, it would be a bad setback to the cause of temperance, for the word would go all over the United States that we in California had done a most unjust act."

This man is still eloquently pleading for the amendment, though he knows in his heart that it is wrong. What do you think of such logic and such methods? Shall we burn the barn to rid it of a few mice?

Shall we sink a ship with all on board to drown one sailor?

And shall we say to the "Instantaneous Prohibitionists," to the extreme radicals who framed and insisted upon Amendment No. 3 against the protests of the more thoughtful advocates of "Progressive Temperance," "You are asking us to vote for a confiscatory measure, an unjust measure, an unfair measure, and for that reason we shall vote No?"

Surely, if the old dominion, Virginia, mother of Presidents and Chief Justices, gives to her grape growers justice, shall not California, the greatest viticultural State of all the star-spangled States, be equally just and equally honorable?

ONE OF SANTA CLARA COUNTY'S FAMOUS HILLSIDE VINEYARDS.

green shoots began to burst out, and we knew that one great industry that means so much to California's prosperity had not been destroyed? And yet the 1910 figures show that the orange acreage was only one-third of that of the vineyard acreage and only 43 per cent of that of the wine-grape acreage.

The area of wine grapes is twice that of prunes, five times the walnuts, nine times the lemons, and eleven times the almonds. Of the total acreage in 1910, including citrus and nuts, there were 866,000 acres. Of this, 40 per cent, or 346,000 acres, are in vineyard. Without its fruit and its vine what would California be?

WIPING OUT FOREIGN MARKETS.

I want to call attention to the extreme nature of this destructive legislation, UNNECESSARILY destructive, ARBITRARILY destructive, even from the standpoint of thoughtful Prohibitionists. I can understand, perhaps, the conviction of a person that a glass of claret at meal time is not best for himself; and he may feel justified in attempting to lay to prevent any other man in California having a glass of claret at dinner, and thus compel the other man to conform to his own doctrine.

But I cannot see how any reasonable man or woman, Prohibitionist or not, can knowingly stand for an idiotic law which would prevent the shipment of California wine to other States and countries that buy wine. If they could not buy California wine they would simply order from Italy or France and enrich those countries with the millions of dollars now annually coming to our State to maintain an established industry. How infinitely and ridiculously absurd! to

be reduced materially. It is an absurdity for the "dry" prophets to claim that table grapes are worth \$32 a ton and wine grapes \$6 a ton; therefore graft them over. They are worth \$32 a ton and wine grapes \$6 a ton; therefore graft them over. They are worth \$32 a ton and wine grapes \$6 a ton; therefore graft them over.

A GRAPE WE CANNOT GROW.

They call attention to the importation of grapes from Almeria, amounting to several millions of dollars. The variety of grape referred to has been tried out for thirty years in California. It is a late variety, which when packed in cork dust keeps till March and April. It has almost uniformly proved a failure here. It requires particular climatic and soil conditions. In the coast section it fails to ripen. In other places it fails to bear. I do not think there are at present over twenty acres of this kind of grape in the State. They have been weighed in the balance and found wanting. The whole table-grape argument of the "dry" leaders is based upon pitiful ignorance. This is only one illustration.

WINE GRAPE MARKET.

The truth of the whole matter is that there are profitable vineyards and unprofitable vineyards; there are seasons without profit, just as in every other line of farming, or other line of business. Previous to the panic of 1908 there was a long period when wine grapes paid large profits. New settlers bought land and planted. Production increased rapidly. After the panic, for the time being, markets were curtailed, and wineries and vineyards, just like other industries, suffered temporarily. Last season conditions were much improved. Wine grapes sold at from \$10 to \$17 a ton in the interior valleys and from \$20 to \$28 a ton in the coast counties. The grower began to see daylight ahead. This proposed amendment, however, is

a gallon at the wineries and selling at the dollar figure. The authority of the dollar delusion, however, seems to rest with one gentleman in Lake county, who once made as much as THIRTY DOLLARS in one year. The proposition is so ludicrous that I fear I am wasting some of your time.

Perhaps, though, these vaporous imaginings should be promptly run down. There are times when a foolish scheme audaciously cultivated may lay the foundation for optimistic promoters to capture and waste the savings of the unfortunate. It would be a public misfortune if, fired by the enthusiasm of the "dry" crusaders, promoters were able to sell thousands of dollars of stock, with the disastrous result that happened in Tullock, in Lodi, in Los Gatos, in Fresno, in Rochester, in Ontario, and, in fact, in about every grape-juice concern that has started along such lines. I think the Lodi optimists paid about \$45,000 for their and experience in making and trying to market California grape juice. Where will be the next community to fall for the "Get-Rich-Quick" Grape Juice Wallingford?

PACKING TABLE GRAPES IN LOS ANGELES COUNTY.

NOT LONG AGO Elwood Mead, the man who is doing a wonderful work in far-off Australia, a work that is winning world-wide appreciation, gave an account of the agricultural upbuilding of the great State of Victoria. There was a text, it seemed to me, underlying his theme, a text that we of California too often forget.

TO THE MEN AND FAMILIES WHO ARE INDUCED TO TAKE THE SAVINGS OF A LIFETIME AND INVEST IN THE LAND, THE STATE OWES SOMETHING.

It is for us, as Californians, earnestly to consider this great question. What does this great State of California owe to the men and families, not alone Californians, but those from other lands and other countries, who have invested their savings, day after day, and the sweat of their brows in our great viticultural industry?

ENCOURAGEMENT BY THE STATE.

In a commonwealth, for half a century California has continuously encouraged viticulture in its every look, raisin, table and wine. Viticultural commissions, the State University and the Department of Agriculture have all bent their efforts toward the upbuilding of a great vineyard industry.

As a fruit of a half-century of effort, a great industry has been built up. Lifetimes of honest and hard endeavor have been devoted to it. Thousands of families look with anxious eyes to the promise of the vintage in the autumn.

It means their livelihood, their bread and butter, the education of their children, and their security in their declining years. In November the men and women of California, to whom we all look for justice and good judgment, must decide whether one of California's greatest industries is to continue, or to be ruthlessly dynamited.

On behalf of those engaged in an industry covering an area greater than that of California's great orange industry, I am going to tell

what the industry really is; to tell the facts; to deny misrepresentations and errors, and to show what bearing this particular law measure may have on the welfare of thousands of owners, upon thousands of workers, both those within the industry and the greater number who derive their living either wholly or partially through this basic one—merchants, mechanics, carpenters, railroad men, and all who share in the money that comes into California through the sale of our products.

DRASTIC NATURE OF AMENDMENT.

The proposed amendment would annihilate the wine-grape industry. It would cripple the raisin industry, and would seriously damage the table grape industry.

It would have a serious effect upon the merchants and business men. It would have an unforeseen and detrimental effect upon hundreds of banks which have many millions of dollars loaned upon vineyard and viticultural securities. It would have an awesome effect upon farmers and business men who might want loans, but who would find that if their banks could not collect their viticultural loans that the same money would be locked up indefinitely, and they

TRAIN CRUSHES
YOUNG AUTOIST.Drives into Path of Santa Fe
Limited.Is Carried Hundred Feet on
Engine's Pilot.Move for Referendum on New
Bus Ordinance.

[LOCAL CORRESPONDENCE.]

PASADENA, Oct. 25.—As he was crossing railroad tracks at North Lake avenue, Earl D. Schyler, a traveling salesman in the employ of the Union Hardware and Metal Company of Los Angeles, was struck by the east-bound Santa Fe Limited and instantly killed yesterday afternoon.

T. M. Shoemaker of No. 936 North Marengo avenue, an eye witness to the tragedy, said Mr. Schyler had stepped to wait for the train to pass and attempted to cross the track, although the bells were ringing and the engine was blowing its whistle. The body, which was crushed beyond recognition, was caught on the pilot and carried 100 feet before it was hurled to the ground. The automobile, a touring car, was carried fully two blocks before the train could be stopped. It was a crumpled mass, parts of which were strewn along the tracks.

Mr. Schyler, who had been married only five months, lived at No. 235 Alhambra canal, Venice. For a month after his marriage, he and his wife, who was formerly Miss Sylvester of Venice, lived at No. 58 North Marengo avenue, Pasadena.

The young wife, who arrived here with her parents a few hours after the accident, was almost prostrated from shock. She and her husband were ideally happy, she said, and had plans for a rosy future. Mr. Schyler's father lives at No. 310 North Avenue 30, Los Angeles.

The body is at the Ives & Warren

parlors, where an inquest will be held at 10 o'clock this morning.

ASK REFERENDUM.

The Pasadena Autobus Association has obtained nearly 2000 signatures to its petition asking the city commissioners to call a referendum election on the recently adopted ordinance regulating the buses.

As only 1114 signatures are required to a petition in order to call an election, the bus men have several hundred names to spare. There are forty petitions in circulation and as many signatures as can be obtained will be added before they are filed with City Clerk Dyer Friday.

The auto men were surprised yesterday to hear that Chairman Metcalf of the commission had declared that he didn't know there is any dissatisfaction among bus men in regard to the recent ordinance regulating the five-cent autobuses. The bus men say Metcalf's statement is inconsistent, as the ordinance raised a storm of disapproval when it was passed.

Commissioner Hamilton said yesterday it is not the intention of the commission to do anything to work a hardship on any person or company, and that the autobus ordinance was passed as an experiment.

Hereafter when firms wish to open up a branch business in Pasadena, they must give bond to show that they intend to remain a year. Unless they do so they will have to pay five per cent on their sales. The city commission announced these facts yesterday when a Los Angeles music house wanted permission to open a small store on South Raymond avenue, but objected to placing the required bond unless allowed to give special sales on Colorado street without paying five per cent commission.

The commissioners refused to budge one iota from their decision, because they say it would not be fair to the local merchants.

Eight cities have already expressed their desire to take part in the Pasadena Tournament of Roses parade. It is expected that every city in Southern California will be represented in the parade, to take advantage of the advertising benefits. The cities which have started the ball rolling are Glendale, Eagle Rock, Burbank, Tropic, Hollywood, Santa Monica, Arcadia and Venice.

RANGERS LAID OFF.

[LOCAL CORRESPONDENCE.]

MONROVIA, Oct. 25.—Owing to it being a day of shortage of funds, the Forest Department has laid off four forest rangers in Monrovia and adjacent districts. They are Forest Guards Daugherty of the Monrovia district, Marks of West Fork, Bancroft of Rincon and Sittler of Mt. Wilson.

CROP REPORTS.

[LOCAL CORRESPONDENCE.]

CARPINTERIA, Oct. 25.—The walnut crop is in the warehouse and a large portion of the nuts have been culled. A half-dozen or more carloads have been shipped. The net container law, requiring a careful weighing of the sacks, has delayed the handling of the crop to some extent, but it is expected that all of the nuts will be ready for market by November 10. The amount of "Jumbo" class nuts has been a surprise, as it was hard to estimate the amount of this superior variety.

Instead of selling the "shells" and culls for a low price, it is the plan to extract the meat and sell them in bulk, for which there is a good market. This will give the sorters about two weeks more of employment. While the greater portion of nuts have been shipped in large sacks, a big percentage have been sold in four-pound sacks. The Carpentier Walnut Growers' Association received one order for 1000 of these sacks, while there have been numerous smaller orders.

BEAUMONT APPLES.

[LOCAL CORRESPONDENCE.]

BEAUMONT, Oct. 25.—Apple shipments to the amount of four carloads a week are being made from Beaumont. Picking of the late crop is in full blast, and will continue in the mountain orchards for a month more. There will be more than 50,000 boxes of apples shipped from Beaumont this season. Most of the apples are being placed in cold storage, the owners preferring to await a more favorable price before putting them on the market.

THRASHING BEANS.

[LOCAL CORRESPONDENCE.]

VENTURA, Oct. 25.—The thrashing machines in the county are now centering their efforts in the Mound district, near this city, one of the most famous lima bean sections in the world. The greater bean yield is showing there, the same as elsewhere in the country. On one ranch, partially finished, that of W. E. Ready, the yield shows thirty-four sacks to the acre, as against twenty-seven on the same land last year.

RIVERSIDE CITRUS.

[LOCAL CORRESPONDENCE.]

RIVERSIDE, Oct. 25.—With two weeks' shipments yet to be reported, it is believed the citrus fruit output from this district the present season will total 4300 cars. The shipments to date total 4241 cars, of which fifty-eight are lemons.

FULLERTON TOMATOES.

[LOCAL CORRESPONDENCE.]

FULLERTON, Oct. 25.—About fifty cars of tomatoes have been shipped from the local district this season.

leaving about seventy-five cars to ship east. The price has averaged \$15 a ton to the growers. The crop is excellent, but the market is not active at present. In addition to these eastern shipments, thirty carloads have been shipped out to the local canneries at \$8 a ton.

Insult Women in Auto and Are Arrested and Discharged from Employment.

ORANGE, Oct. 25.—Seven farm hands from the Dixie ranch, at Villa Park, out on a time, ended their lark by spending a night in the Orange Jail. They were riding near Olive in an automobile when they met another automobile in which Miss Nell Alinsworth and other young people from Orange were riding.

One of the men tossed a full bottle of beer at Miss Alinsworth's automobile, and the bottle struck her on the side of the head. While she was stunned she was not seriously injured. After the men were arrested, Hugh Thompson, foreman of the ranch, discharged them. M. O. Alinsworth, father of the girl, declined to prosecute them and they were allowed to go.

SAN DIEGO, Oct. 25.—Charles Seybolt, formerly secretary of the San Diego Labor Temple, who was arrested in St. Louis on an order from the District Attorney's office of this county and brought here, is charged with embezzling \$1000 collected for a fund to erect a Labor Temple in this city. Seybolt, his young wife and child left this city September 21, last, and went to St. Louis. Seybolt was arraigned today and his bail fixed at \$2000. The trial was set for November 6.

BLOODLESS BATTLE.

[LOCAL CORRESPONDENCE.]

SANTA ANA, Oct. 25.—Six Deputy Sheriffs armed with rifles and revolvers dashed by auto to Cypress on a telephone message that two Mexicans had been killed and that another was dying as the result of a free-for-all fight. The officers could find no trace of blood. They were mystified as to how the message was sent until Frank L. Klein was taken up as an insane person. He imagined killings had taken place and that two men and a woman were chasing him. He was exhausted from running.

[LOCAL CORRESPONDENCE.]

LONG BEACH, Oct. 25.—With inspectors scrutinizing every piece of lumber going into the structure, the rejuvenation of the auditorium that collapsed May 24, 1912, and precipitated a tragedy, was begun today. A large force of carpenters began the reinforcement of the foundation, placing new joists at many places, and remodeling the interior under the direction of the Board of Public Works.

Sentiment was strong for a new auditorium, but the City Council felt that abandonment or wrecking of the old structure would be a confession that it was unsafe, thus affecting the suits of more than 100 persons for over \$3,000,000 damages as a result of the collapse. The city will spend \$7000 in reinforcing, repainting, altering and painting the building. It will probably be ready for the holidays.

NEW INDUSTRY.

[LOCAL CORRESPONDENCE.]

Long Beach is to have a new industry as the result of the letting of the \$240,000 sewer contract to the Bent Company. This firm announces that it will establish a vitrified sewer pipe works on Cherry street, just outside the city limits, beyond the reach of city protests against industries. The sewer pipe factory will be permanent here. The contractors are having many carloads of material and tools hauled here, and will be ready to start on the work of digging trenches in a few days, giving employment to about 150 men.

ROUGH-NECK CLUB.

[LOCAL CORRESPONDENCE.]

An aggregation of loiterers who have made the life of certain policemen miserable by their "free speech" and noise-making, have organized a political club, called the "Roughneck Club." To be a member one needs only to appear and join in the gabfest for one sitting. The club gave a "banquet" on the lower deck of the auditorium today at noon, and debated loudly the merits of candidates, some of whom appeared in person to ask for indorsement.

UNIQUE PARTY.

[LOCAL CORRESPONDENCE.]

Girls of the Y.W.C.A. are planning a "Satan party" for Halloween. Only girl members will be allowed at this function, which will feature Heaven, Hades, Purgatory and the "Chamber of Horrors." Guests will be required to purchase admission tickets of little "devils" and gain admission by crawling under a table at the door. Miss Gladys White will represent Hades, while Miss Hazel Jones will be in charge of the chamber of horrors. Miss Lela Cook is at the helm of the committee arranging the party. Meetings of the gymnasium class will be stationed round the buildings to ward off male intruders.

LOTTERY RAID.

[LOCAL CORRESPONDENCE.]

Chief of Police Cole last night directed a raid on No. 168 Chestnut avenue, arresting J. G. Potter and Ralph Gilmore on the charge of selling lottery tickets. The Chief confiscated about 200 of the tickets. Potter pleaded guilty and was fined \$200, which he paid. Gilmore said he was not guilty and his case was set for October 30.

Relief In Novel Way.

Adrian, Mich.—"I suffered terribly with female weakness and backache and I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a place of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better, and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' [BY A. F. NIGHT WIRE.]

NEW YORK, Oct. 25.—Reduction of the quarterly common dividend of the United States Steel Corporation 10 to 15 per cent, was an interesting event of the day in the financial district. By taking the dividend, which was indirectly attributed to the European war, the company was enabled to turn what otherwise have been another year's surplus into a very small surplus. The investment situation, however, was not improved. Extensive trading in city and State bonds was reported. The 4 1/2 per cent bonds of Massachusetts cities selling at 105 1/2, and the 4 1/2 per cent bonds of the State of New York at 105 1/2, were the most active. Wheat was moderately active and slightly over their respective quotations.	of last year's crop, while rice production is 334,000,000 bushels or 90.6 per cent.; oats 410,000,000 bushels or 90.7 per cent. and barley 82,000,000 or 11.2 per cent. In Asiatic Russia (ten governments) the wheat production is estimated at 1,311,000,000 bushels or 100 per cent. of the crop of 1910.	of local grain in several weeks. The output is increasing very slowly and prices were unchanged. Butter declined, the first recorded change in the market for nearly three weeks. This was due to an easy market throughout the country. The wheat production is estimated at 1,311,000,000 bushels or 100 per cent. of the crop of 1910.	hops, per lb. 6; tonnage, per lb. 10; snouts, per lb. 8; ears, per lb. 8 1/2; middlings, 5; brains, each, 2; jowls, 1 1/2. **MAY PROVIDE
PT. FIRMIN ROAD.**

**AID TO FORTIFICATION WORK IS
URGED UPON COUNCIL.**

**City Refuses to Expend Money on
It, but Work may be Demanded
Under Law Wherein Property
Owners Would Have to Pay Costs
Though not Desiring Improvement.**

The City Council yesterday adopted the report of its Finance Committee, refusing to expend \$2250 in the improvement of a road in the harbor district needed by the government in its heavy hauling to the site of the fortifications being installed on Point Firmin.

But while the attitude of the Council on the expenditure of public funds on the roadway needed by the government is decisive, it is not the end of the subject, as it is quite possible the road will be improved, through order of the Council, under the provisions of the 1913 act. In such case, the abutting property owners would have to pay the costs, regardless of the fact that they do not desire the improvement at this time and would refuse to petition for it.

Under the provisions of this act, the Council is supreme. It can order the improvement, and is not compelled to take cognizance of any petition of protest.

Immediately after the Council took action yesterday in endorsing the action of the Finance Committee, the subject was taken up by various persons interested in securing the advantages desired for the government, so that the fortification work may not be hindered.

Major Raymond, United States Engineer for the harbor, explained the situation to President Whiffen of the City Council, who is also chairman of the Finance Committee, and showed the necessity for some plan of improvement at the earliest possible date. He stated that either the improvement of the first street, Thirty-second street would be satisfactory in the handling of the heavy hauling of materials for the government work, but is inclined to favor the former route.

Today the members of the Harbor Commission, the City Engineer and Major Raymond will go to the harbor district and make a careful inspection of the routes proposed. Heavy auto trucks will be used to demonstrate which route is preferable. The Harbor Commission tomorrow morning will adopt a resolution asking the Council to reconsider its action or to provide for the improvement of the road under the 1913 act proceedings.

Councilman Langdon, who is chairman of the Harbor Commission, will present the case before the Council and urge speedy action. It is probable that the other Council members will readily consent to the institution of proceedings under the 1913 act. In such case the work could be carried through within approximately ninety days.

Mayor Rose stated yesterday that he is heartily in favor of the improvement of this road, as an aid to the government in placing its fortifications.

MOHLER'S LUCK.
FORTUNE STILL FAVOR HIM.
Charles K. Mohler, chief engineer of the railroad department of the Board of Public Utilities, will not be separated from his \$1000-a-month job next Saturday. He is probably in possession of this sinecure during the indefinite length of time it will take for the Municipal League to make a "thorough and searching inquiry into the powers, duties, activities and possibilities of the Board of Public Utilities, and the relationship between it and other city departments."

Transfer of Permits.
The Police Commission at yesterday's session granted a transfer of four liquor permits. The saloon permit for No. 577 South Main street was transferred from Martin J. Conroy to Foster & Stoner. The saloon permit for No. 239 North Main street was transferred from Nuccio & Macagno to Nuccio & Zitzelsberger. A transfer was granted for the saloon permit for No. 421 East Fifth street from Edward W. Schuler to Schuler & Moeller. Masakichi Tokunaga was granted permission to transfer his No. 2 restaurant liquor permit from No. 119 North San Pedro street to No. 105, on the same street.

Put Them Under Curb.
The Police Commission yesterday gave its hearty approval to the recommendation of Chief of Police Beaudry that legislation should be adopted that will place under the supervision of the police department all collection agencies.

Charges are Preferred.
The Chief of Police yesterday filed with the Police Commission charges against Frank Marion Gower, holder of a wholesale liquor permit for No. 623 Central avenue, and the Italian Club, holder of a social club liquor permit for No. 1017 Wilshire street, alleging that these concerns had stolen property on their premises. Both permit holders were cited to appear before the commission November 10 to show cause why their permits should not be revoked.

Broadway Extension Assessment.
Next Saturday is the time originally set for the filing of the assessment for the opening of Broadway from Tenth to Pico streets. Col. Schreiber, head of the Opening and Widening Streets Bureau, asked the Board of Public Works yesterday for an extension of thirty days within which to complete the assessment. The total sum of \$1,300,000 must be spread upon the property within this assessment district, which covers practically only the street frontage directly affected. This means that some of the properties will have to carry an assessment of from \$1000 to \$1500 a front foot.

Headlines Policy.
The Police Commission yesterday in emphatic terms reaffirmed its policy of adhering to the rule that no permits will be issued for massage establishments until the license is on the second floor and both sexes are treated.

Social Club Liquor Permits.
The application of the Rex Social Club for a social club liquor permit for No. 1017 North Main street was laid on the table by the Police Commission yesterday. The application can be taken up without prejudice at some future time, should there be a lessening of the present number of such permits, but the commission decided that there are now an ample number of social club permits in op-

eration, and no new ones would be issued until there are vacancies in the present list.

Charges are Dismissed.
The Police Commission yesterday approved the action of the Chief in dismissing the charges made by Mr. and Mrs. J. A. Johnson against Patrolmen E. W. Kinsey and A. R. Donham. The Chief reported that the charges had been fully investigated and were without merit.

The commission approved of the action of the Chief in dismissing from the service Patrolman C. A. Luethe for "general incompetency." Approval was given by the commission to the appointment of special police officers to serve without pay. The list includes Fred R. Johnson for Trinity Auditorium, George Landerbeck for the Echo Park district, and E. C. Pebbles for Rivers brothers.

**END OF LONG
TRIAL TODAY?**

**L.A.I. COMPANY CASE DRAWS
NEAR CLOSE.**

**Effort to Prove Concern and
Guarantee Fund One and the Same
has Proved Mainly an Attorney's
Battle—Case Adjourned Yesterday
Until this Morning.**

When Judge Hewitt yesterday adjourned the Los Angeles Investment Company case until 11 o'clock this morning, there was every indication that the suit would be brought to a close today. It has been on trial since the latter part of July.

Warren D. Isenberg and Robert M. Fulton, counsel for Sidney Harris, the 20-year-old plaintiff, have for weeks been trying to prove the Guarantee Fund and the Los Angeles Investment Company were one and the same. Walter K. Tuller and Eugene A. Holmes, attorneys for the defendant, have been as strenuously opposing this theory. It has therefore, been an attorney's battle from start to finish, and has been recognized by lawyers and judges as an extremely hard case to try.

Young Harris bought 450 shares of Los Angeles Investment Company stock in the winter of 1912-1913. He is suing to recover \$1007.50 paid in on his three contracts. The investment company has been realising on the ground that whereas the first and third contracts were with the Los Angeles Investment Company, the second was with the Guarantee Fund, and that inasmuch as this was a separate and distinct institution, the investment company should not and cannot be held responsible for the sale of 235 shares of investment company stock at \$4.15 per share.

Arthur D. Martin, manager of the investment company, will be called this morning as the last witness by the plaintiff. Among the witnesses yesterday, were Charles A. Elder, former president, who refused to testify on the ground that he might incriminate himself, and J. Benk, bookkeeper for Home Makers.

Mr. Elder was represented by his attorney, F. McDonald Spencer, who read to Judge Hewitt a portion of the Federal grand jury's indictment of Mr. Elder. Judge Hewitt ruled the latter need not testify.

SHOT BY LUNATIC.
In sustaining the demurrer of the defendants to the complaint of Frank Merz to recover \$19,144.45 damages for a wound in his foot caused by a bullet fired by John L. Doak, now at Patton, Judge Hewitt acted without precedent, yesterday. Apparently there is nothing in the statutes covering a similar case.

John Doak happened to be at the Hollenbeck Hotel, April 23, 1912, an innocent bystander, when John Doak drew a revolver and shot and killed a brother and wounded Merz. The suit was brought not only against John Doak, but his parents, Mr. and Mrs. Thomas Jefferson Doak, and his brothers, Fred, Charles, Bert and Will. The defendants demurred that the complaint did not state facts sufficient to constitute a cause of action. The court gave Merz ten days to amend, holding that the complaint did not show how John Doak came into possession of the revolver. Mr. Merz will be given opportunity to show whether the gun belonged to John Doak or was given to him.

The complaint alleges that John Doak escaped from an asylum at Salem, Or., in November, 1912, and went to the home of his parents, who afterward had him in custody. He was in the custody of his father and his uncle, Samuel, at the Hollenbeck, when he ran amuck with the revolver.

ALLEGES SUICIDE.
WOULD PAY NO INSURANCE.
The Pacific Mutual Life Insurance Company has filed a motion for a new trial in the case of Mrs. Esther B. Kinsey, who recovered, before a jury in Judge Myers's court, judgment for \$4750 on a policy held by her husband, E. W. Kinsey, a mining man. Mr. Kinsey lost his life while bathing September 19, 1913, and the cause turned on whether his death was accidental or two ribs were fractured by rough handling in the endeavor to resuscitate him.

The Pacific Mutual sets up that it has newly-discovered evidence to show that Mr. Kinsey swallowed poison and was therefore a suicide; consequently, his widow could not recover on an accident policy. Affidavits have been made, it is alleged, showing that, previous to his death, Mr. Kinsey admitted he was in financial straits. During the trial testimony was introduced showing that while in the suit, he was seen to read what appeared to be a glass phial to his lips.

COURT PARAGRAPHS.
PROCEEDINGS IN BRIEF.
MANDAMUS SUIT. Miss Evarena Mayme, a primary department teacher, filed suit Monday to compel County Superintendent Keppel, in mandamus proceedings, to approve her warrant for \$120 for September's salary, or to show cause why the approval should not be given. Mr. Keppel holds that the demand was drawn in violation of the State school law, which provides for a large number of demands for salaries of teachers in the elementary grades which have been held up.

BOLDLY BATTLES BAILIFF.

Girl Believing "The Female of the Species is It, Stops When Straps are Threatened.

Miss Mary Nichols, angered because Judge Taft had committed her to the Home of the Good Shepherd, went on a rampage at Juvenile Hall yesterday. For a few minutes she had things her own way, repulsing an attendant of Juvenile Hall and bearing down on Bailiff Gates.

Nichols tried to bite Bailiff Gates, not to speak of the attendant, but finally they got her into an auto, headed for the home. With feet, hands and teeth the young woman battled with the bailiff. Finally in desperation he ordered the chauffeur to drive to the Sheriff's office.

"I will get the straps and put them on her," he declared.

The effect was magical. Miss Nichols ceased her wrapping. She was soon deposited at the home.

BY DIRECT WEBB—EXCLUSIVE DISPATCH.

AKERSFIELD, Oct. 28.—Judith over the success of his campaign for four through the San Joaquin Valley and Central California, Cal. John D. Fredericks, at midday crossed the Chasqui homeward bound. The Republican candidate for Governor is confident that he will be elected by the north and that the State will be his majority, just as it was in the primary.

There have been many banners during this campaign, but none has been so successful as the one that was exhibited in Kingsburg, where the Fredericks party entered the morning until after the night's big meeting here, the Republican standard-bearer was accorded unprecedented receptions.

In Tulare, particularly, the demonstrations of loyalty to Capt. Fredericks were of a high order.
